**to keep you  
warm this  
Winter**

HSS has over 18,000 heaters to help keep you and your business warm this winter including a range of Direct, Indirect, Radiant, Site/Office and Fan Heaters. So whatever your heating need, HSS can help keep you warm. Visit our online heating guide at [hss.com/heat](https://www.hss.com/heat) or see the back page of this leaflet for more information and to help you decide which heater is best for you.

#### **Infra-Red Heater**

Recommended for offices, shops, hospitals and other 'clean' areas, these stylish heaters provide instant, localised fume free warmth.

#### **Retail Fan Heater**

The Retail Fan Heater is ideal for use in retail outlets, garages, workshops and building sites. Safety features of this Retail Fan include a tilt sensor and an overheating thermostat.

#### **Radiator Heater**

These highly cost-effective and efficient heaters have been especially designed for use in heating offices, site huts and domestic rooms.

#### **LPG Blower Heater**

These heaters are perfect for providing large volumes of warm air in environments such as warehouses, factories and halls. Direct heaters are most suitable in ventilated areas, as the heating process adds moisture to the air during combustion.

#### **57kW Heater**

For heating large spaces in factories, workshops and other areas, this fully enclosed flame heater produces 57kW of heat per hour. Exhaust gases can be safely ducted away through 100mm ducting or can be added to the heat output to achieve 100 % efficiency.

#### **HSS Sells Gas Tool**

HSS supply a complete range of Propane, Butane and Patio Gas in a range of cylinder sizes.

**Better  
equipped**

**to light  
your site  
this Winter**

Lighting at work is essential for the health and safety of everyone in the workplace. HSS Hire offers a large selection of portable lighting solutions to ensure that your chosen location is always fully illuminated. Choose from a single unit or combination of different lighting towers; many equipped with a built-in generator to produce clear, brilliant light. Visit our lighting guide at [hss.com/lighting](https://hss.com/lighting) for more information.

#### **4 Head Metal Halide Lighting Tower**

Providing up to four times the light capability of traditional tungsten bulbs, this road towable lighting tower features four 1000W metal halide bulbs to produce bright, white light for a variety of applications.

**NEW**

#### **4 Head Metal Halide Lighting Tower - with Dusk til Dawn Sensor.**

This lighting tower has unique feature of a light detection sensor that automatically switches on the unit when the ambient light has descended to a predetermined level. In reverse, the sensor will close down the lighting when sufficient brightness rises.

**NEW**

#### **Ecolite**

The Ecolite is 75% percent more fuel efficient than 1,000W metal halide giving a 170 hour runtime. The Ecolite provides superior quality light suitable for building sites, roadwork's and lighting large outdoor events.

#### **Site Light**

This innovation is exclusive to HSS and produces 1600W of metal halide, bright white light. It is ideal for lighting construction sites or outdoor events. The Site Light is road towable and features 6 adjustable light heads.

#### **Telescopic Floodlights**

Providing the light you need to work by over a large area, these tripod mounted, fully enclosed, floods make excellent site lights.

#### **Festoon Lights**

For general, low-level on-site lighting, festoon lights are the traditional solution. Simply string them out along scaffolding, fencing or trees.

**Better  
equipped**

**to power your  
business this  
Winter**

HSS Hire has the generators to power you through the Winter. Fuel efficient and with a variety of voltage sizes to choose from, each generator features multiple outlet points to manage a variety of lighting, sound and other energy requirements.

#### **2.5kVA Portable Petrol**

Perfect for providing on-site electricity for lighting and small power tools, this useful little generator is so portable it fits into the boot of most cars.

#### **Diesel Generator**

The wheelmounted Hawk 2.6kVA Diesel Generator supplies both 110V or 240V portable power on site, for small tools and lighting equipment. It can run for 3 hours at full load and is EU noise compliant.

#### **6kVA Generator**

For powering heavy duty site tools, this diesel generator is equipped with 240v and 110v sockets.

#### **10kVA Silenced Diesel**

Producing over 7kVA of continuous power, this barrow mounted generator has a choice of seven 110/240V outlets. This makes it ideal for powering a variety of tools and lighting equipment on large sites.

#### **20kVA Silenced Diesel**

Supplying 240V and 415V (3 phase) simultaneous power, this 20kVA silenced generator delivers continuous high power to meet tough on-site demands. It has multi-socket outputs and a hard wire facility.

#### **60kVA Super Silenced Diesel**

Combining super high performance with road-tow portability, this silenced diesel generator supplies 240V and 415V (3-phase) continuous power.

**Better  
equipped**

**to keep you  
dry this  
Winter**

HSS has an extensive range of portable dryers, warm air dryers and pump dehumidifiers that are suitable for removing most forms of moisture in a room, whether its damp or just excess moisture in the air.

#### **52Ltr Industrial Dryer**

This is a professional dehumidifier with an extra high capacity of up to 52 litres in 24 hours. It is easily portable with large wheels and can be used in rooms up to 400m<sup>3</sup>

#### **25Ltr Industrial Building Dryer**

Dry out damp buildings quickly and efficiently before rot and fungus can take hold. Invaluable in the aftermath of floods and burst pipes, this dryer can also be used as a dehumidifier to reduce condensation after plastering or decorating.

#### **Air Scrubber**

With user friendly and versatile features, this air scrubber is ideal for handling indoor and quality needs. It is recommended for any restoration job that involves sewage, mould or fire damage.

#### **10Ltr Portable Dryer**

Perfect for drying out rooms after redecorating, replastering and repairs to minor leaks, this portable de-humidifier is ideally suited for the home, site or office.

#### **Pump Dehumidifier**

No more checking water levels and emptying water containers with this new building dryer. The inbuilt pump automatically purges water through the supplied hose direct into a sink or drain, over 12m away.

#### **Floor & Carpet Dryer**

Drying out carpets after leaks and floods is easy with this powerful three-speed, heavy-duty dryer. Just lift one edge of the carpet, insert the nozzle and switch on! It works on hard floors, by simply directing the airflow over the wet surface.
