

DIY EQUIPMENT YOU NEED

**NATIONWIDE
SERVICE**

OUR BUSINESS

HSS Hire provide an extensive range of tools and equipment available through all our branches for either **pick up or delivery**.

This catalogue highlights some of our equipment, but **with thousands of products available, it only scratches the surface**. Please speak to your local branch if you are looking for a particular product.

We also have a **full range of accessories available** including transformers, extension leads, blades and safety equipment.

WHY HIRE?

Here are some advantages of Hiring equipment, rather than buying:

- If you're only doing a one-off job and won't have a need for the tools afterwards, spending a lot of money on something you aren't going to use again isn't ideal.
- You aren't tied down to purchase agreements or loans.
- You don't have to worry about maintenance or storage.
- You don't have to think about selling or disposing of the equipment when you no longer need it, or it has reached the end of its life.

MiTower - One Person Quick Build Tower

The MiTower one-person quick build tower comes self contained in its own transport and storage pack making it easily fit through a standard doorway and into a small van. This high-quality EN1004 class 3 product is tested and approved by TUV Nord.

- Working height of 6m, platform height of 4m
- Complies with EN 1004 Class 3 product standards
- One person assembly and dismantle
- 10 minutes for assembly

Note: Do not use if wind speed exceeds 17mph

Technical Specification	MiTower	MiTower Plus
Code	M6286	M6287
Platform Height	4m	4m
Working Height	up to 6 m	up to 6 m
S.W.L.	150kg	275kg
Tower Dimensions (LxW)	1.17m x 0.73m	1.62 x 0.728m

Alloy Access Tower

Full Width Towers

A range of 1.45m wide alloy towers supplied with castor wheels for easy, on-site mobility. A safe method for tasks such as inspection, general maintenance and light construction.

Narrow Width Towers

Where space is limited, our range of 0.85m wide mobile alloy towers can solve your access problem – perfect for stairwells, alleys and narrow forecourts.

- Supplied ready for erection
- Choice of 1.8m or 2.5m long decks
- Safety toe-boards and stabilisers included
- Adjustable locking castors for safety & mobility

HSS towers conform to either 3T or advanced guardrail method of assembly. The product codes below relate only to tower following the 3T method of assembly.

- Do not use access tower if the wind speed exceeds 17 mph.
- Tower heights are shown including handrail.
- Tower width measurements are taken from centre to centre of upright frames.

Technical Specifications

Full Width 1.45M		
Max. S.W.L	225kg Per Deck	950kg Per Tower

Powered Access

Pop-Up Pro iQ10

For those essential indoor repair, maintenance and installation tasks where you need safe and simple low level access, our Pop Up Platform is versatile and easy to use.

- Battery powered operation
- Lightweight and compact
- Low noise level and CO2 emission free with no exhaust fumes

Technical Specification

Code	M6281
Item	Pop up
Power	12V battery
Working Height	5.0m
S.W.L	240kg
Platform Height	3.0m
Raise / Lower Time	18/20 sec
Dimensions (L x W x H)	1.2 x 0.7 x 1.8m
Weight	394kg

Our access equipment is useful for:

- Painting & Wallpaper
- Cleaning gutters
- Changing light fittings
- Hanging Banners or other items

19ft Scissors Lift

Self-propelled scissor lifts with pendant control that allows all lift and drive functions to be carried out by operators whilst the unit is elevated.

- Customers must provide proof of adequate insurance cover.
- Large platform area with 227kg load capacity

Technical Specification

Code	M5928
Power	Electric (24V Battery)
Working Height	7.8m
S.W.L	227kg
Platform Height	5.8m
Closed Dimensions (L x W x H)	1820x813x2110mm
Weight	1483kg

Note: One person only when used externally. Do not use if wind speed exceeds 28 mph.

Eco Manual Platform Lift

The Eco has an auto-lock mechanism that activates on elevation ensuring the product cannot be moved when in use. It is easy to manoeuvre and fits through a standard doorway or lift. This is for indoor use only, with no oil and hydraulics it is ideal for all clean room activities.

- Eco-friendly
- Manual lift in design with no power consumption, low noise or CO2 emissions
- Fits through interior doorways and lifts
- Anti-surf auto brake when elevated
- Step into the platform, no climbing

Technical Specification	
Code	M5920
Platform Height	2.2m
Working Height	4.2m
S.W.L	150kg (1 person + tools)
Dimensions	1.28 x 0.70 x 1.94
Weight	305kg

Powered Access

Gardening

Portable Electric Shredder

For light garden waste this multi-purpose garden shredder pulps most organic rubbish down to a mulch for composting.

- Ideal for shredding down garden litter, branches, or any other light material.
- Transportable

Technical Specifications	
Code	M5719
Voltage	240V
Weight	63kg
Cutting Capacity	35mm
Dimensions (L x W x H)	280 x 650 x 1385mm
Chopping Speed Cuts/min	36,000

Gardening

Rotavator - Power Digger

Digging over large areas of cultivated ground? You'll find it quicker and less back-breaking with this powerful professional rotavator.

Ideal for commercial and domestic applications, this tool is easily capable of producing excellent results on previously cultivated ground such as garden borders, allotments and vegetable plots.

- Powerful 5hp engine with a digging depth of 200mm
- Working width of 640mm making this item ideal for use on large areas

Note: petrol is NOT supplied with this item (fuel container available to purchase)

Labour saving & easy to transport

Technical Specification

Code	M5712
Engine	5hp Recoil start 4-Stroke
Fuel	Unleaded Petrol (please be advised we do not supply fuel)
Fuel Tank Capacity	3.1L
Fuel Consumption	1.4L per hour
Working Width	640mm
Digging Depth	200mm
Weight	69kg
Dimensions (L x W x H)	1400 x 700 x 840mm

Turf Cutter

The easiest and most efficient way to remove large areas of turf in preparation for landscape gardening projects, pipe and cable laying.

- Ideal for removing turf that needs to be relaid

Technical Specification

Code	M5706
Fuel	Petrol
Working Width	400mm
Blade Depth Adjustment	25mm to 40mm
Weight	90kg

Rotary Lawn Mower

Mowing large areas is no problem for this professional, powerful rotary petrol lawn mower.

Technical Specification	
Code	M5702
Engine	Recoil start 4-Stroke
Fuel	Unleaded Petrol (fuel is not supplied with this item)
Cutting Width	500mm
Weight	29kg

Lawn Scarifier

Our powerful petrol-driven lawn scarifiers are ideal for use on large lawns, parkland and playing fields.

Technical Specification	
Code	M5704
Engine	4.8hp Recoil Start
Fuel	Unleaded Petrol
Fuel Tank Capacity	3.1L
Working Width	420mm
Weight	63kg

Garden Roller

Why not give your lawn that professional finish with this easy to handle, easy to clean garden roller. This Roller is ideal for the compressing of soil work and smoothing of lawns and is lightweight when empty to carry in a car.

- Use for the smoothing of lawns
- Can be filled with water or sand

Ideal for
compressing
soil

Technical Specification	
Code	M5705
Weight (empty)	7kg (empty)
Weight (full)	63kg (full)

Mini-Dumper

This 0.25 tonne dumper is an exceptional machine for moving building materials and aggregate. This 4-wheel drive power unit is 700mm wide, making it narrow enough to fit through the average doorway for internal work, slip down side alleys or climb over steps and footings.

Technical Specification

Code	M5402
Engine	5.5hp
Fuel	Unleaded Petrol (fuel is not supplied with this item)
Capacity	6 cu ft or ¼ tonne (250kg) carrying capacity
Weight	110kg

Hedge Trimmer

Petrol hedge trimmers and cutters are perfect for larger gardens and are ideal for working away from mains power supply.

- Please note - Fuel is not supplied with the petrol model of this item.

Technical Specification

Code	M5709
Voltage	Recoil start 2-Stroke
Power	Petrol (not included with hire)
Blade Length	700mm

Long-Handled Hedge Trimmer

This long-handled petrol hedge trimmer lets you cut tall hedges anywhere in the garden, without the need for access equipment.

- Adjustable cutter bar for greater visibility and less tiring work

Technical Specification

Code	M6300
Fuel	Petrol + 2-Stroke Mix
Cutter Length	550mm
Pole Length	2.34m

Leaf Blower

This portable petrol driven backpack leaf blower is ideal for clearing areas of fallen leaves, grass cuttings and other materials. It can clear large areas both quickly and conveniently.

Technical Specification

Code	M6305
Engine	2-Stroke Air-Cooled
Fuel	Petrol + 2-Stroke Mix
Weight	9kg

Petrol Strimmer Brush Cutter

Made to cut long grass, lawns, weeds and light under-growth, this petrol strimmer brush cutter will reach into the most inaccessible places.

- Choice of heads for grass and undergrowth
- Star blades / cord / decimator are not included and are sold separately

Technical Specification

Code	M5700
Engine	1.5hp Recoil start 4-Stroke
Fuel	Unleaded Petrol
Weight	6.5kg

Flame Gun

Whether you're burning off weeds or sterilising ground ready for digging, this triple-burner flame gun will get the job done. Propane gas available for sale.

Technical Specification

Code	M5714
Gas Consumption	5.9kg/hour
Weight	3kg

Concreting & Compaction

Tip-Up Concrete Mixers

The rotating, tilting stand mixers allows you to mix up to 85 litres of concrete or mortar and tip it straight into a barrow. Compact and lightweight, they can be moved easily though doorways. Ideal for both DIY and professional use - can be handled by one person.

- Will mix 85 litres in approximately 6 minutes
- Choice of electric (110v/240v) or petrol mixer
- Petrol is NOT supplied with this item
- Cleaning charges may apply
- CO2 emission free, no exhaust fumes versus petrol mixer

Technical Specifications			
Code	M5290	M5291	M5294
Voltage	110V	240V	Petrol
Power	630W	630W	Recoil start 4 stroke unlead petrol
Drum Capacity	85 Litres	85 Litres	85 Litres
Weight	79kg	79kg	83kg

Useful for:

- Medium sized projects
- Laying a shed base
- Paving slabs or stepping stones
- Building walls
- Cementing a driveway
- Pouring floors

Floor Saw

For continuous cutting through concrete and masonry pavements, roads or motorways, we have a comprehensive range of floor saws for all professional contractors.

Note: Petrol is NOT supplied with this item

Technical Specifications		
Code	M5299	M5300
Engine/Fuel	Recoil start 4 stroke unleaded petrol	
Cutting Depth	127mm	165mm
Disc Size	350mm	450mm
Weight	87kg	135kg

Vibrating Wacker Plates

Our Light or medium vibrating wacker plates are perfect for compacting hardcore, sand or gravel. Lifting points and front lift cage allow easier loading and unloading

- Petrol and 110v models available
- Low HAV design allows longer, safe using times
- CO2 emission free, no exhaust fumes versus petrol vibrating plate

Useful for:

- Maintenance & Repair work
- Compact hardcore, sand, gravel, soil or armac
- Make a smooth surface ready to lay artificial grass
- Create a pathway or driveway
- Filling potholes
- Laying a greenhouse/shed base

Technical Specifications				
Code	M5408	M5411	M5414	M5409
Engine/Fuel	Recoil start 4 stroke unleaded petrol		Diesel	110v
Plate Size (W x L)	320 x 574mm	400 x 606mm	400 x 703mm	360 x 364mm
Weight	59kg	84kg	154kg	50kg

Floor Tile Stripper

Not only can you use this Floor Tile Stripper for lifting floor tiles, lino, carpet, or vinyl floor planks, but also for chipping off mortar, scraping plaster, glue residue and foam backing from concrete floors, as well as other build-ups that need removing ready for you to lay new flooring. The vibrating blade machine is easy to use and will cope with most commercial and domestic surfaces, saving you a lot of time and taking the pain out of trying to do the job by hand. The blade angle can be adjusted according to the type of floor covering.

- High-frequency vibrating blade
- Fully adjustable blade angle to suit flooring and adhesion
- Has great mobility and stability due to control handle and large diameter wheels

Technical Specification

Code	M5656
Voltage	110V
Power Rating	1100w
Weight	45kg

Events & Siteworks

Mesh Fence Panels

A building site or premises with tools, materials, plant and other machinery can be very inviting to a thief - additionally the site could be a break-in route into adjacent properties. When you need secure temporary fencing on-site, these temporary 2.85m wide mesh panels provide site security and are a cost-effective deterrent to theft and vandalism. Supplied with rubber feet and stabilisers, the strong close mesh provides a secure barrier. Fencing is now a health and safety necessity to keep the public out and protect them from site hazards.

- Hire rate includes backstays
- Pedestrian and vehicle gates are easily fitted
- Ideal for event crowd control
- Panels conform to HS (G) 151

Useful for:

Providing Security
Crowd Control

Technical Specifications

Code	M6089	M6091	M6092
Item	Mesh Panel Kit	Vehicle Gate	Pedestrian Gate

Pedestrian Barriers

Constructed from tough, strong galvanised steel, these 2.4m long barriers are ideal for pedestrian control. Barriers can be interlocked to form an effective chain that can be easily erected and dismantled.

Technical Specification

Code	M5520
Dimensions (L x H)	2300 x 1100mm
Weight	14/16kg

Enduramat

The enduramat is an ideal ground cover solution for accessing construction sites and events where soft ground or flooring needs to be protected from site vehicles or the general public.

- Mats measure 2440mm x 1220mm
- Simple and quick to install with easy to use connectors
- Hand cut-outs aid two man loading
- Reversible non-slip surface feature - one side for pedestrian use and the other for vehicles

100% recyclable material

Technical Specification

Code	M5685
Dimensions (L x W)	2440 x 1200mm
Thickness	19mm
SWL	35kg

Bunded Diesel Fuel Bowers

These fully bunded road towable diesel bowers are legal for towing up to 950L of diesel on the road. The feed and return points provide a constant fuel supply for larger generators. Recommended for refuelling of site equipment.

- Bunded base prevents fuels leaking into the environment.

Technical Specifications

Code	M5688
Capacity	950L, 210 gallons
Dimensions (L x W x H)	3500 x 1550 x 1700mm
Weight	525kg unladen; 1500kg laden

Pressure Washer & Bowser

Clean site equipment with this combined pressure washer and bowser. The bowser supplies a water supply for over an hour's continuous use.

- Extended galvanised chassis
- Lockable lid
- Robust trailer

Technical Specifications

Code	M5678
Water Capacity	1100L, 250g
Dimensions (L x W x H)	3500 x 1560 x 1350mm
Fuel	Diesel
Weight	450kg (unladen) 1500kg (laden)

Compact Pressure Washer & Bowser

This is ideal for use in areas with no direct power or water supply. If you need to tackle graffiti, clean up road signs, clear grime from a patio, or smarten up brickwork, the 150L capacity tank and Honda GX 120 engine will provide 12 minutes constant washing time away from a water source.

Technical Specifications

Code	M5683
Water Flow (at full pressure)	9L/min
Dimensions (L x W x H)	1170 x 660 x 870mm
Pressure (at full flow)	1500psi
Weight	78kg

**NOT SURE WHAT

FOR THE JOB?**

Call or drop into your local HSS branch and they will be happy to give you guidance.

Breaking & Drilling

Hilti TE3000 Heavy Duty Breaker

The mighty TE 3000 AVR heavy duty breaker brings impressive hammering power to big concrete demolition jobs. This breaker is very versatile and can be used for breaking up concrete and asphalt for road building, repair work & pipe laying.

- Breaking performance of up to 6 tonnes of concrete per hour
- Includes transport trolley
- CO2 emission free and low noise versus petrol breaker and hydraulic breaker

Technical Specification

Code	M5113
Voltage	110V
Power	1760W
Single Impact Energy	68J
Hammering Frequency	860 impacts per minute
Weight	29.9kg
Active Vibration Reduction	Yes
Reduced Impact Energy	No

Hilti TE1000 Breaker

This versatile breaker has 50% less vibration than conventional models, reducing user fatigue and enabling usage times to be considerably increased therefore providing high productivity.

- Chisels up to 1.3m³ of masonry per minute.
- Light and easy to operate

Technical Specification

Code	M5035
Breaking Capacity	1600W
Voltage	110V
Weight	11kg

Hilti TE2000 Vibration Damped Breaker

The Hilti TE 2000 AVR medium duty breaker delivers powerful performance equal to competitor breakers in the 30kg weight class, at virtually half the weight. It can break up to 3 tonnes of concrete per hour. The TE 2000 can be used for breaking out channels for laying pipe, removing concrete for rebar connections and demolition of concrete slabs and foundations.

Technical Specification	
Code	M6326
Voltage	110V
Power	1760W
Single Impact Energy	35J
Hammering Frequency	1800 impacts per minute
Weight	14.5kg
Active Vibration Reduction	Yes
Reduced Impact Energy	Yes

Hilti TE700 Medium Duty Breaker

This medium duty breaker is built for comfort and has been specially designed for extensive interior renovation work.

- Lowest vibration volume of its class
- Well balanced symmetrical shape
- Recommended for use with our M-Class dust extractor
- Ideal for removing plaster

Technical Specification	
Code	M5099
Voltage	110V
Power	1300W
Hammering Frequency	2760 impacts per minute
Single Impact Energy	11.5 J
Weight	7.9kg
Active Vibration Reduction	Yes
Reduced impact energy	Yes

Cordless Hammer Drill

Combining the performance of mains power with the mobility of cordless, this powerful hammer drill is perfect for general masonry drilling tasks.

Technical Specification	
Code	M5040
Voltage/Battery Capacity	18V/3Ah
Power	Rechargeable batteries X2
Single Impact	1.7J
Drilling Range	4-18mm masonry, 13-20mm wood
1st Gear	1400 rpm

Hilti TE80 Heavy-Duty Atc Combi-Hammer

Precise control and operator comfort is guaranteed with the heavy duty ATC combi-hammer, this machine is capable of hammer drilling up to 150 mm cores in concrete, stone and masonry.

- Ideal for SDS max drill bits between 20-40mm
- Active torque control (ATC) is an advanced safety feature which protects the user

Technical Specification	
Code	M5037
Voltage	110V
Power	1700W
Single Impact Energy	11.5J
Hammering Frequency	4600 impacts / minute
Drilling Range	20-40mm
Weight	9.7kg
Active Vibration Reduction	Yes

Two Tool Air Compressor

This air compressor is designed to be compact, efficient, economical and easy to operate.

- Fitted with air fuses for operators safety
- Electric start diesel engine
- Bunded base 110% of capacity prevents fuel and oil leaking into the environment

 Bunded base with 110% capacity

Technical Specification

Code	M5193
Engine	Electric- Start
Fuel	Diesel
Max.Air Pressure	101psi
Air Delivery	125cfm (3540l/minute)

Electric Air Compressor

Whether you are paint spraying or powering air tools, choose from our wide range of electric and petrol driven compressors.

- Choice of petrol engined and electric units
- Integral receiver tanks and water separators

Technical Specification

Code	M5696
Engine	Electric
Voltage	240/110V
Max.Air Pressure	116-150 psi
Air Delivery	8-9cfm 227-250 L/min

Sawing & Cutting

Portable Cut-Off Saw

Note: Cut-off saws will break down if the incorrect fuel mix is used and charges may be incurred.

If you are cutting bricks, blocks, concrete, stone, roof tiles or metalwork on-site, these saws are the professional's choice. Lightweight and ergonomic, with an outstanding power-to-weight ratio and exceptionally low vibrations (below 2.5 m/s²) means you can work for up to 8 hours without having to worry about vibration monitoring.

- 2 sizes available 300mm (12") and 350mm (14")
- Dust suppression kit available
- 2-stroke premix fuel available for sale

Technical Specifications			
Code	M5156	M5158	M5157
Item	14"	12"	Water bottle / dust kit
Engine	Recoil-start, 2-stroke	Recoil-start, 2-stroke	
Fuel	Unleaded petrol + 2-stroke oil mix	Unleaded petrol + 2-stroke oil mix	
Max Cut Depth	125mm		
Disc Size	350mm	300mm	
Weight	11kg	9.4kg	

Blades

Blades for hire or sale in 300mm and 350mm sizes. Suitable for cutting a wide variety of materials including concrete, reinforced concrete, building materials and asphalt.

Technical Specifications				
Code	M5178	M5179	M5176	M5732
Diameter	300mm	300mm	350mm	350mm
Material	Concrete	Asphalt	Concrete	Asphalt

Angle Grinders

For grinding and cutting masonry or metal, or raking out mortar joints. These are just some of the jobs our versatile, professional electric angle grinders can help you tackle.

- Low weight for optimum handling
- 110V and cordless options available
- Dust adapter option for 125mm models
- Cutting discs available for 125mm models - ask in branch for more information

Technical Specifications

Code	M5135	M5134	M5182
Voltage	110V	110V	22v battery x2
Cutting Depth	64mm	34mm	34mm
Disc Size	230mm	125mm	125mm

Chasing Machine

When running pipes, conduits or cables, cutting accurate chases in brick and masonry is easy with our diamond-wheel machine.

- 125mm diameter discs for splitting depths up to 40mm and widths up to 46mm

Note: We recommend using the Hilti Dust Extractor.

Technical Specification

Code	M5174
Voltage	110V
Power Rating	1700W
Disc Diameter	125mm
Max. Cutting Width	46mm
Max. Cutting Depth	40mm
Weight	6.9kg

Sanding & Fixing

Floor Sander

Renovating old board, traditional parquet and block wooden floors is easy with this purpose-made, heavy-duty drum floor sander, removing imperfections, old finishes and most decorative stains to leave the surface ready for varnishing or polishing.

Note: Must be used with a disposable dust bag.

- Sanding sheets are not included and sold separately
- Breaks in to three components making it easy to transport

Technical Specification	
Code	M5109
Voltage	240V
Power	1920W
Weight	42kg
Dimensions (W x D x H)	322 x 940 x 855mm

Floor Edging Sander

Sands wooden floors right up to the skirting board to tackle those parts of board, traditional parquet and block floors our floor sander can't reach.

- Sanding discs are not included and are sold separately

Technical Specification	
Code	M5110
Voltage	240V
Weight	14.5kg
Dimensions (W x D x H)	276 x 505 x 325mm

Floor & Edge Sander Hire Pack

The Floor and Edge sander is also available in a Hire Pack to help you get the job done with ease.

Technical Specification

Code	M5111
Item	Floor and Edge Sander Hire Pack
Voltage	240V
Combined Weight	56.5kg

Drywall Sanding Kit

Whether you are sanding joints in plasterboard or removing old finishes, this purpose-made, 5-speed plaster-sander tackles the job up to four times faster than conventional methods.

- Supplied with extraction unit and hose for dust-free operation
- Head swivels for sanding ceilings
- Reaches up to 3m
- Drywall sanding pad available for sale (sold separately)
- We recommend using with a dust extractor vacuum

Technical Specification

Code	M6299
Voltage	110V
Power	300W
Disc Diameter	225mm

**NOT SURE WHAT
PRODUCT YOU NEED
FOR THE JOB?**

Call or drop into your local HSS branch and they will be happy to give you guidance.

Timber Nailer

For rapid nailing of timber frame structures, roofing, shuttering and fence erection, this portable gas powered nailer drives 51-90mm nails quickly and safely.

- Quick charge battery allows up to 9,000 shots per charge
- Pre-set depth adjustment
- Sequential trigger action

Technical Specification

Code	M5508
Power	Rechargeable Battery
Voltage	240V (charger)
Nail Range	51-90mm
Weight	3.4kg

Brad Nailer

For fixing architrave, door sets, beading, picture rails and second fix carpentry. This lightweight nailer drives brads into lightweight blocks, screed and plaster in one easy action.

- Lightweight and well balanced tool
- 'No-mar' tip for accurate placement and reduced damage to wood
- Brad nailer can fire up to 6,000 brads on a single 1 hour charge
- Consistent finishing - adjustable depth of drive system allows seamless fixing without the extra time needed to re-touch or re-finish

Technical Specification

Code	M5509
Power	Rechargeable Battery
Voltage	240V (charger)
Nail Range	16-63mm
Weight	2.3kg

Painting & Decorating

Professional Wallpaper Stripper

Large 7.5 litre tank capacity allows up to 90 mins of stripping

The fast, effective way to remove all types of wallpaper, vinyl, woodchip & decorative wall coverings leaving a clean surface for redecoration, without damaging the plaster.

- Stripper has a step built in to the cage for hard to reach areas
- On-board storage makes this unit compact & portable

Technical Specification

Code	M5689
Voltage	240V
Power	2750W
Tank Capacity	7.5L
Base Plate	253 x 305mm
Hose Length	5m run cool anti-kink
Weight (dry)	8.7kg

Cooling

Evaporative Cooler

These evaporative coolers are suitable for a variety of locations including shops, warehouses, factories and large areas. Available in two sizes.

- Can reduce room temperature by up to 14°C
- Powerful 2700m³ per hour airflow directed through both louvres
- Provides natural cooled air for areas up to 53m²
- Mobile and easy to set up

Technical Specifications		
Item	Medium	Large
Code	M5581	M5582
Power	240V	240V
Wattage	220W	300W
Cooling Area	57m ²	80m ²
Water Capacity	40L	50L
Dimensions (L x D x H)	620 x 375 x 686mm	700 x 466 x 1017mm
Weight	15kg	18kg

Power Fan

The power fan is a fully portable industrial cooler. It provides high-performance cooling in both commercial and industrial applications.

- Ideal for warehouses, factories, marquees and offices
- High level fans available
- Adjustable fan height
- Variable fan speeds

Technical Specifications

			High level power fan
Code	M5592	M5593	M5594
Power	240V	110V	110V/240V
Max Output	9100m ³ /h	9100m ³ /h	9100m ³ /h
Motor	780W	780W	780W
Height	N/A	850mm	1.4m-2.1m

Compact Air Conditioner

Sleek and modern mobile air conditioning unit which will cool down offices, computer and conference rooms. With castors fitted this compact air conditioner can be moved easily from room to room. Supplied complete with exhaust vent and hose.

Technical Specification

Code	M5609
Voltage	240V
Cooling area	25m ²
Cooling capacity	3.2kW
Dimensions (H x W x D)	775 x 375 x 442mm
Weight	40kg

Heating

Infrared Heater

Suitable for a variety of locations including shops, factories, warehouses and offices. These heaters provide instant, localised fume free warmth.

- Projects heat up to 6m
- Single or twin heat settings
- Castors for easy manoeuvrability
- Integrated cable tidy

Technical Specifications

Code	M5550	M5551
Heat Output	3kW	3kW
Voltage	110V	240V
Power	3kW Continuous	3kW Continuous
BTU/h	10236	10236
Lamps	2X1.4Kw Slim Line Ruby Quartz Halogen	2X1.4Kw Slim Line Ruby Quartz Halogen
Frequency	50Hz	50Hz
Dimensions (L x W x H)	500 x 460 x 1000mm	500 x 460 x 1000mm
Material	Medium Density Polyethylene (Heater Body)	Medium Density Polyethylene (Heater Body)
Cable Length	3m	3m
Weight	12kg	12kg

Fan Heater

This portable fan heater is ideal for homes, offices, retail outlets and other occupied areas where safety is key. This heater is thermostatically controlled with built-in protection against overheating and cut off protection when knocked over.

- Thermostatically controlled heat
- Adjustable heater angle

Technical Specification	
Code	M5542
Heat Output	2.4kW
Power	240V
BTU/h	9553
Weight	8.3kg

LPG Blower Heater

With the power to heat large spaces quickly, these mobile direct-fired, fan-assisted propane heaters are ideal for industrial and on-site use.

- Gas available for sale

Technical Specifications			
Code	M5557	M5559	M5560
Heat Output	31kW	44kW	73kW
Power	110V/60W	110V/240W	110V/240W
BTU/h	105000	150000	260000
Gas Consumption	2.5kg/h	3.25kg/h	5.9kg/h
Weight	11.5kg	19.4kg	29.6kg

Drying & Pumping

Pump Dehumidifier (52 Ltr)

No more checking water levels and emptying water with this dryer. The in-built pump purges water automatically through the supplied hose direct into a sink or drain, over 12m away. The rotomolded polyethylene housing is dent resistant, offers superior durability, and helps to protect furnishings when in use. Stack up to two units high for storage. A rigid handle and semi-pneumatic wheels ensure easy transport and manoeuvrability.

- Removes up to 55L of water per day
- Supplied with a discharge hose

Technical Specification	
Code	M5568
Power	240V/720W
Extraction Rate at AHAM Certified Conditions	32L/day @ 26°C and 60% RH
Maximum Extraction Rate	55L/day @ 32°C and 90% RH
Operating Range	1° - 38°C
Weight	36kg

Useful for:

If your space is suffering from damp due to flooding, a leak, plastering or if it is an old building.

25Ltr Industrial Building Dryers

Dry out damp buildings quickly and efficiently before rot and fungus can take hold. Invaluable in the aftermath of floods and burst pipes, this dryer can also be used as a dehumidifier to reduce condensation after plastering or decorating.

- Extracts 4.5 to 30L of water in 24 hours
- Dries spaces up to 300m³

Technical Specifications	
Code	M5566
Power Rating	1.5kw
Voltage	110V
Weight	55kg
Extraction Rate	25L at 20deg. and 75% RH

Puddle Pumps

This puddle pump is ideal for pumping out clear water from flooded areas and cellars. The electric pump will reduce water levels to within 1mm of the floor.

- Supplied with discharge hose

Technical Specification

Code	M5417
Voltage	110V
Power	370W
Outlet Size	25mm
Max Output (no lift)	105L/minute

Submersible Pump

For dealing with deep clear water found in drains, wells and swimming pools, these fully submersible electric pumps are both highly efficient and economical.

- Can pump over 240L a minute
- Supplied with discharge hose

Technical Specification

Code	M5418
Voltage	110V
Power	110V/480W
Outlet Size	50mm
Max Output (no lift)	240L/minute

Trash Pump

For clearing trenches and deep excavations of water and water-borne debris, this petrol-engine trash pump will handle solids up to 25mm and is capable of shifting over 1300 litres of water / min.

Technical Specifications

Code	M5423
Outlet Size	75mm
Max Output (no lift)	1340L/minute
Max. Suction Lift	8m
Max. Total Head	27m
Fuel	Unleaded petrol

Centrifugal Pumps

Emptying swimming pools, pumping out flooded areas - these versatile lightweight portable pumps will cope with most water pumping jobs.

Technical Specifications		
Code	M5421	M5422
Outlet Size	50mm	75mm
Max Output (no lift)	600L/minute	930L/minute
Max. Suction Lift	8m	8m
Max. Total Head	27m	26m
Fuel	Unleaded petrol	Unleaded petrol

REDUCING THE COST OF HIRE

Due to our size & national network, we have the buying power to provide competitive hire prices. Our dedicated sales teams will work with you to scope out your requirements and provide a bespoke & cost effective solution.

Lighting

Trime X-Eco Lighting Tower

Equipped with 6x160W LED floodlights and a fuel-efficient diesel engine, the X-ECO Lighting Tower is ideally suited for outside events, highway contracts and construction projects.

- 6x160W LED lights
- 8.5 m hydraulic mast
- 110-litre tank capacity
- Up to 200 hours of running time

Technical Specification

Code	M5622
Fuel capacity	110 litre
Lamp type	LED
Run time	200 hours
Weight empty	920 kg
Minimum dimensions	2320 x 1380 x 2420 (LxWxH)
Maximum dimensions	2390 x 2390 x 8500 (LxWxH)
Noise level	65dBA @ 7m

Self-Righting LED Work Light

Used as a single light or can be linked together to form an effective light chain. Delivering a broad, near shadow-free illumination perfect for plastering, and general decorating jobs.

- Filled with a 5m cable and 16A power socket
- Energy saving LED technology uses less power and reduces energy consumption

Technical Specification

Code	M5630
Voltage	110V
Power	20V
Weight	6.5kg

LED Smith Light

This battery powered LED light is both versatile and energy efficient making it the greener alternative to traditional halogen, fluorescent and incandescent lighting.

- Double-sided pivoting head gives all round illumination of up to 1,480 lumens
- Low heat output
- Energy saving LED technology uses less power & reduces energy consumption

Technical Specification

Code	M5634
Voltage	240V(charger), 12V(bulb)
Run Time	12 hours
Open Height	1100mm

Single & Twin Head Tripod Lights

These LED floodlights emit a cool white light (6500k). An ideal solution for larger working environments, reducing the appearance of shadows. Energy saving LED tech uses less power & reduces energy consumption.

Technical Specifications

Code	M5610	M5611
Item	Twin	Single
Voltage	110V	110V
Power Rating	2 x 30W	30W
Mast Height	1.7 - 2.4m	1.7 - 2.4m
AMP	16a or 32a	16a or 32a

Power

2.6kVA Silenced Petrol Generator

Perfect for providing on-site electricity for lighting & small power tools, this useful little generator is so portable it fits into the boot of most cars. Recommended for use with an RCD plug.

Technical Specification

Code	M5281
Engine	Recoil Start
Fuel	Unleaded Petrol
Fuel Tank Cap/Run Time	3L/3 Hours
Generated Voltage	110V / 240V
Continuous Power	2.2kW
Weight	41kg

6kVA Silenced Diesel Generator

For powering heavy duty site tools, these diesel generators are equipped with 240V and 110V sockets. Low noise emission, fitted with multi-socket outlets and circuit breaker

Technical Specification

Code	M5 287
Engine	Electric Start
Fuel	Diesel
Generated Voltage	115V/230V
No of outlets	3x 115V/2x 230V
Continuous Power	4.3kW
Fuel Tank Cap/Run Time	24L/16 Hours

10kVA Silenced Diesel Generator

Producing over 7kVA of continuous power, this barrow mounted generator has a choice of seven 110V and 240V outlets.

Technical Specification

Code	M5285
Engine	Electric Start
Fuel	Diesel
Generated Voltage	115V/230V
Plugs available	4x 115V/3x 230V
Continuous Power	7.2kW
Running Time	10 Hours

Plumbing

Central Heating Flusher

A professional descaling unit designed to flush out central heating systems and remove harmful iron oxide deposits, which can cause radiator cold spots and blockages. Also protects boilers and pumps. Gloves and cleaning fluid can be purchased online or when flusher is picked up.

- 50 Litre heavy duty tank
- Easy to use cam-lock connections
- Reverse flow and double dump facility as standard
- Cleanser, inhibitor and descaler available for sale

Technical Specification

Code	M5499
Voltage	240V
Power Rating	370W
Capacity / Total Head	40L/12m @ 60L/minute
Weight	12kg

Pipe Freezing Kit

Note: Please state pipe size when ordering.

No need to drain plumbing systems to make repairs or alterations. Provided the cold water is not flowing, sections can be isolated with ice plugs.

Technical Specification

Code	M6910	M5755
Voltage	110V	240V
Power	310W	310W
Pipe Sizes	12-42mm	12-42mm
Weight	25kg	25kg

Pressure Tester

Test for leaks in pipework and water systems following installation using our manual or electric pressure pumps.

- Manual tester
- Sensitive pressure-loss leak detection
- Electric tester

Technical Specifications

Code	M5757	M5758
Item	Manual	Electric
Max Test Pressure	60 bar (840psi)	40-78 bar (1100psi)
Weight	7kg	16kg

FOR MORE INFORMATION

Call **1800 22 33 66** or contact
your local branch.

Cleaning

Carpet Cleaner

Our carpet cleaner is ideal for domestic carpets in households and small offices. This compact and easy to manoeuvre unit is simple to operate and cleans / restores pile on most fabrics (test small area first).

- Quick drying and leaves minimal residual moisture
- Deep cleans carpets
- Simple to operate
- Carpet cleaning solutions for sale

Technical Specification

Code	M6306
Voltage	240V
Power	1100W
Maximum Area Performance	20/25m ² /h
Air Flow Rate	54L/s
Spray Rate	1L/m
Spray Pressure	1bar
Back Pressure	2.5bar
Tank Capacity	10L
Dimensions (L x W x H)	665 x 320 x 435mm
Weight	10kg

Compact Pressure Washer

This highly mobile petrol-powered high-pressure cleaner is mounted in a tubular steel cage frame. The machine is ideal for cleaning applications where no power supply is available.

Technical Specification

Code	M5668
Engine/Fuel	Recoil start 4-Stroke/ Unleaded petrol
Operating Pressure	150bar (2200psi)
Flow Rate	650L/h

Pressure Washer

With an operating pressure of up to 130 bar, our compact and versatile power washer is ideal for a wide range of cleaning jobs.

- Automatic pressure cut-off for reduced energy and water consumption. Switches off immediately when work is interrupted
- Integrated 10m high-pressure hose

Technical Specification	
Code	M5663
Voltage	240V
Power	2200W
Maximum Pressure	130bar
Operating Pressure	115bar
Flow Rate	500L/h
Dimensions (L x W x H)	360 x 375 x 925mm
Weight	19kg
Spray Output	8.3L/minute

Useful for:

- Cleaning patios / patio furniture
- Avenue's / footpaths
- Exterior Walls of buildings
- Concrete garage floor
- Wooden Deck
- Garden walls
- Car, bin, gutters

Wet & Dry Vacuum

This wet & dry vacuum can stand up to constant use in difficult wet or dry applications. With a drain hose for easy emptying and a generous 90L capacity, the wet and dry vacuum makes dealing with large-scale floods or spillages easy.

Technical Specification	
Code	58201
Voltage	110V
Power	2200W
Waste Capacity	90L (19.78 gallons)

Compact Pressure Washer & Bowser

This powerful compact pressure washer and bowser is designed for hard to reach areas and provides approx. 12 minutes constant washing time away from a water source.

Technical Specification	
Code	M5683
Pressure (at full flow)	1500psi
Water Flow (at full pressure)	9L/min
Tank Capacity	150L
Fuel	Petrol

Training

Serious about Safety.

HSS Training is the specialist training division of HSS Hire.

Training your workforce is key to ensure that they're productive and – more importantly – kept **safe from harm**. Let us help make sure your workforce is better equipped to be safe on site with our range of courses available **nationwide**.

We offer **industry recognised courses** in a wide range of workplace safety, working at height, health & safety and industry specific scenarios. We can work with you to tailor the content of our courses to your precise requirements.

- Manual Handling
 - Working at Height
 - Harness Inspection
 - Fire Marshal Training
 - CSCS Aluminium Tower Training
 - MEWP Training
- ...and much more!

Buying New Kit?

**WE ONLY SELL
TRUSTWORTHY
BRANDS**

We are a one stop shop for all your equipment hire and sale requirements. As you know, hiring kit is our speciality. We do it day in, day out. But, we're also a large seller of tools, equipment and accessories. We're confident that whatever you need, we can provide it.

Popular Sales Items

Safety Symbols

Make sure you meet your duty of care for employee and personal safety. To help you, we ensure all HSS products conform to the Health & Safety at Work Act 1974.

Eye Protection – All round protection grade 1 goggles to EN 166.B – Less hazardous work; grade 2 spectacles.

Breathing Masks
1. General purpose, disposable masks for low-risk dust and water-based airborne sprays.

2. Respiratory disposable masks with charcoal filter for welding fumes, ozone and most nuisance level odours.

3. Consult product supplier for guidance and COSHH data information.

Welding Masks – Welding masks or goggles are included with your equipment.

Ear Defenders – Protection against high noise levels. Earplugs are suitable for short-term work.

Safety Footwear – To BS EN 345 for toe protection.

Vibration Caution
More information can be found at hss.com

Protective Gloves – Gauntlets, PVC, cotton or rigger gloves for hand protection.

Safety Helmets – Protect against falling objects. Compulsory on site.

Dust – We recommend using a Dust Extractor where you see this symbol.

Disposable Overall – Semi-durable polypropylene material protects clothing from accidental splashing and dirt.

Power Breaker – RCD Residual Current Devices protect from electric shock. Strongly recommended for electrical equipment used outdoors or in damp conditions.

Personnel Lifting – Equipment designed for personnel lifting. Use of safety restraint harness recommended.

Vertical Lifting – Use only for vertical lifts. Position or suspend equipment from a safe point to take weight of load and equipment.

Angle Lifting – Use at any angle for lifting, pulling or dragging. Anchor to a secure point able to take load force applied. Allow for contact friction if dragging.

Sling Lifting – Do not use "load" cable/chain as sling. Prevent hook overcrowding, with a "bow" shackle. Join lifting equipment with a "D" shackle. Protect sharp edges to prevent load damage.

Stable Load – Ensure load is balanced and personnel stand clear. Attach "tag" lines to control rotation. Never leave equipment unattended. Ensure unobstructed landing site accepts equipment plus load in size and weight.

Hook Safety – Ensure safety catches are engaged and load chains/cables are untangled and hang freely.

Transport Symbols

Collecting Yourself

If you are collecting equipment, weights are shown in kilograms and are supported by symbols indicating the type of vehicle needed.

Where no symbol is shown the equipment may be carried in a family saloon.

Estate car

Truck

Towable

7.5 tonne truck

Fuel Services

We can supply Eco packs, Red Diesel and Fuel Management Services where you see this symbol.

H.O.L (Height of Lift)

Indicates the maximum height of lift.

S.W.L (Safe Working Load)

Do not exceed safe working load or submit to a load greater than its carrying capacity.

Reach

Working height (2 metres above platform).
