

THE EQUIPMENT YOU NEED

**NATIONWIDE
SERVICE**

Core Business

HSS Hire provide an extensive range of tools and equipment available through all our branches for either **pick up or delivery**.

This catalogue highlights some of our equipment, but **with thousands of products available**, it only scratches the surface. Please speak to your Area Sales Manager or local branch if you are looking for a particular product.

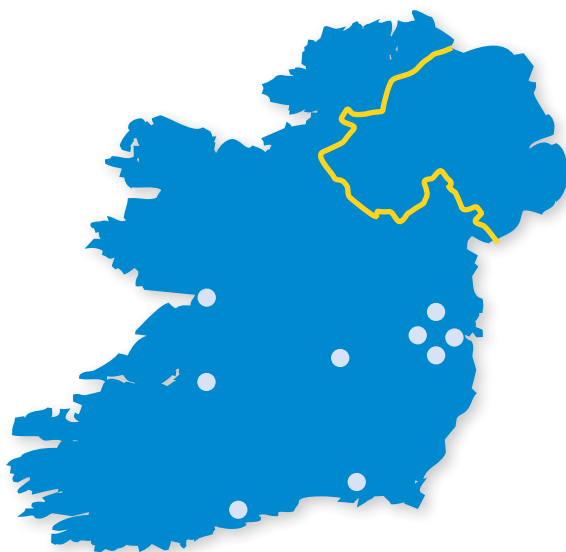

We also have a **full range of accessories available** including transformers, extension leads, blades and safety equipment.

Cross Hire

We will help you to source whatever kit you need, wherever you need it and our dedicated Hire Controllers will manage the whole process for you.

- Specialist Equipment Sourcing
- Emergency Kit Replacement
- Dedicated HSS Support
- Use your HSS Account to order

Training

HSS Training is the specialist training division of HSS Hire Ireland. We offer **industry recognised courses** in a wide range of workplace safety, working at height, health & safety and industry specific scenarios.

We have experienced trainers who understand that training your workforce is key to ensure that they're productive and – more importantly – kept **safe from harm**. Let us help make sure your workforce is better equipped to be safe on site.

“ I completed an IPAF course in the HSS training centre in Santry. There was good communication beforehand, with clear instructions for the day and the instructor was knowledgeable and friendly. Very well run - would highly recommend. ”

IPAF MEWP Operator Training - For anyone required to supervise or rescue an operator, or who needs to safely operate a MEWP in any machine category.

1a – Static Vertical – Scissor lift with outrigger

1b – Static Boom – Van Mount Truck

3a – Mobile Vertical – Scissors Genie 1932

3b – Mobile Boom – Star 10 / Genie Z45 / S6

Working at Height - Covers the essential points (current legislation, regulations and guidance) for those working at height.

Push Around Vertical (PAV) - This IPAF Operator course with practical training session and assessment covers small static vertical machines with no mechanical drive that are physically pushed around.

Harness Use & Inspection - For those who use or wear a harness themselves & those who are responsible for inspecting their company's personal fall protection equipment and maintaining inspection records.

MEWPS for Managers (ONLINE) - Aimed at those who plan, supervise or manage work at height with Mobile Elevating Work Platforms (MEWPs).

MEWP Demonstrator - For anyone who may be delivering a MEWP and is obliged to show the hirer how to use the machine, or an operative that needs to do a pre-start check on a machine or a handover with a colleague.

Ideal for those who do not want time away from their job / workplace.

Mental Health & Wellbeing Training - Teaches you to recognise various mental health problems, how to start a conversation with someone who is suffering, and what to do until further help is available.

Manual Handling Training - Provides the skills and knowledge required to be proficient in Manual Handling operations including any lifting, pulling, pushing or moving of heavy items.

Fire Marshal Training - Provides delegates with the necessary knowledge and understanding required to competently undertake the role of fire warden / fire marshal in the event of an emergency.

Access

MiTower - One Person Quick Build Tower

The MiTower one-person quick build tower comes self contained in its own transport and storage pack making it easily fit through a standard doorway and into a small van. This high-quality EN1004 class 3 product is tested and approved by TUV Nord.

- Working height of 6m, platform height of 4m
- One person assembly and dismantle
- 10 minutes for assembly

Note: Do not use if wind speed exceeds 17mph

Technical Specification		
Code	M6286	M6287
Platform Height	4m	4m
Working Height	up to 6 m	up to 6 m
S.W.L.	150kg	275kg

Alloy Access Tower

Full Width Towers

A range of 1.45m wide alloy towers supplied with castor wheels for easy, on-site mobility. A safe method for tasks such as inspection, general maintenance and light construction.

Narrow Width Towers

Where space is limited, our range of 0.85m wide mobile alloy towers can solve your access problem – perfect for stairwells, alleys and narrow forecourts.

- Choice of 1.8m or 2.5m long decks
- Safety toe-boards and stabilisers included
- Adjustable locking castors for safety & mobility

HSS towers conform to either 3T or advanced guardrail method of assembly. The product codes below relate only to tower following the 3T method of assembly.

- Do not use access tower if the wind speed exceeds 17mph.
- Tower heights are shown including handrail.
- Tower width measurements are taken from centre to centre of upright frames.

Delta Deck Low Level Platform

An innovative work at height solution, this compact Delta Deck Low Level Platform is easy to transport and store and is perfect for those needing flexibility when working at heights of 3m and below. Full and correct height guardrails are automatically erected at all platform height setting.

- Quick Assembly
- Compact Footprint
- Multiple Working Heights

Technical Specification	
Code	M6290
Platform Height	0.45-0.87m
Working Height	2.45-2.87m
S.W.L.	200kg
Tower Dimensions (LxWxH)	1.12 x 0.76 x 1.90m
Folded Dimensions	0.31 x 0.76 x 1.12m
Weight	26.89kg

Treble Ladder

This Treble Ladder is robust and built to last. Made from lightweight aluminium with high-performance box-section alloy stiles, unique wrap-around top clips and slip-resistant rungs. They are suitable for trade use.

- High-performance box-section alloy stiles for strength and rigidity
- Easy to use push-up operation
- Rung clips secure sections together for safe and easy use and transport

Technical Specification		
Code	M6267	M6268
Closed	2.5m	3.5m
Extended	6m	9.1m
Weight	18kg	22kg

GRP STEP with handrail

This GRP Step with Handrail uses strong, non-conductive fibreglass rails and includes twin handrails for safety. It is ideal for working at heights of up to 3.45m.

- Non-conductive fibreglass stiles ideal for working around electricity
- Fitted with a safety chain for extra security when working on a platform
- Conforms to the latest EN131 Standard
- Slip resistant tread

Technical Specification

Dingli Mast Lifts / Skyjack SJ16

The Dingli AMWP7-8100L is an Electric Low Level lift fitted with electric lifting push rods to replace the traditional hydraulic cylinder. Low noise and low emissions. The Skyjack SJ16 is a compact self propelled vertical mast lift with brilliant manoeuvrability.

- Ideal work platform if you are operating in tight work spaces, with a zero inside turning radius
- Easy to operate and driveable at full height.

Technical Specification		
Code	M5000	M4999
Platform Height	4.7m	4.75 m
Working Height	6.7m	6.75 m
S.W.L.	200kg	227kg
Platform Dimensions (LxW)	1.00m x 0.76m	1.37 m x 0.77 m
Weight	990kg	971 kg

M5000

M4999

Pop-Up Pro iQ10

For those essential indoor repair, maintenance and installation tasks where you need safe and simple low level access, this Pop Up Platform is versatile and easy to use. Battery powered operation

- Lightweight and compact
- Low noise level and CO2 emission free with no exhaust fumes

Technical Specification	
Code	M6281
Item	Pop up
Power	12V battery
Working Height	5.0m
S.W.L	240kg
Platform Height	3.0m
Raise / Lower Time	18/20 sec
Dimensions (L x W x H)	1.2 x 0.7 x 1.8m
Weight	394kg

Eco Manual Platform Lift

The Eco has an auto-lock mechanism that activates on elevation ensuring the product cannot be moved when in use. Auto lock system allows you to work at any height during elevation. Easy to manoeuvre and fits through a standard doorway or lift. This is for indoor use only, with no oil and hydraulics it is ideal for all clean room activities.

- Eco-friendly
- Manual lift in design with no power consumption, low noise or CO2 emissions
- Anti-surf auto brake when elevated
- Step into the platform, no climbing
- Intuitive to operate, turn handle to elevate
- Ideal for clean room projects

Technical Specification	
Code	M5920
Platform Height	2.2m
Working Height	4.2m
S.W.L	150kg (1 person + tools)
Dimensions	1.28 x 0.70 x 1.94
Weight	305kg

Star 6AC Vertical Masts

The Star 6AC is more agile, more robust, and more reliable than ever. With the ability to reach a maximum market-leading height in only 14 seconds the Star 6AC is the ideal solution for any site. Low noise level and CO2 emission free with no exhaust fumes, fitted with AC motors for lower power consumption.

- Suitable for Indoor or Outdoor Use
- High precision driving and smoothness

Technical Specification	
Code	M5916
Platform Height	3.8m
Working Height	5.8m
Power	12V -105 Ah (C5)
Weight	835kg

Star 10 Mast Boom Lift

This tight turning Mast Boom Lift (Star 10s) with ASB bar has an articulating jib and a 10m working height with Activ' Shield Bar. It is the solution for carrying out cleaning, maintenance and repair work in retail stores and factories.

- Activ Shield Bar fitted as standard
- Platform Height 8m
- Working Height 10m
- Active pot hole protection for added safety
- Narrow turning radius provides unparalleled positioning

Technical Specification	
Code	M5924
Platform Height	8.0m
Working Height	10.0m
S.W.L.	200kg
Dimensions LxWxH)	2.8 x 0.99 x 1.98m
Weight	2760kg

HR12 Mast Boom Lift

With its compact dimensions and class-leading working envelope, the HR12 has always been versatile and reliable. Its telescopic boom provides increased accuracy when positioning the platform. Bi-Energy allows you to work in a wide range of environments.

Technical Specification	
Code	M5925
Platform Height	10.2m
Working Height	12.2m
Outreach	6.1m
S.W.L.	215kg
Power	24V
Dimensions (LxWxH)	4.10 x 1.50 x 1.90m
Weight	3470kg
Self Propelled	Yes

Scissors Lift - 7.8m

This electric scissor lift allows you to work at heights of up to 7.8m. The scissor lift can be used for fixing light fittings, electrical and heating installations, painting and decorating or industrial cleaning. You'll be able to use the scissor lift in places like warehouses, theatres, factories and even to assist you with home renovations. The scissor lift is perfect for jobs that are in tight spaces and the unit can easily fit through standard single or double doors. You'll be able to manoeuvre the equipment with the easy to use functions and will be kept safe by the access gate and rails.

Note: Do not use outdoor machines if wind speed exceeds 28 mph

Technical Specification	
Code	M5928
Platform Height	5.8m
Working Height	7.8m
Extending Deck	1m
S.W.L.	227kg
Dimensions (LxWxH)	1.82 x 0.81 x 2.11
Weight	1503kg

Compact Electric Scissor Lift - 10m

Suitable for work indoors and outdoors on firm, level surfaces where space is limited. Its state-of-the-art Genie AC electric E-Drive system offers unmatched efficiency and runtime on installation, maintenance and construction jobs where a significant amount of driving is required.

- Quiet, zero-emission electric operation
- Front-wheel drive and zero inside turning radius for easy positioning

Technical Specification	
Code	M5930
Working Height	9.96 m
S.W.L.	454 kg
Dimensions (LxW)	2.44m x 1.16m
Weight	1,971kg

Narrow Electric Scissor Lift - 10m

This quiet, electrically-powered Genie 2632 scissor lifts is excellent for indoor construction, maintenance and installation applications on firm, level surfaces.

- Easy to manoeuvre in tight spaces
- Large platform workspace

Technical Specification	
Code	M5927
Working Height	10m
S.W.L.	227kg
Dimensions (LxW)	2.43m x 0.81m
Weight	2145g

Electric Scissor Lift - 11m

This quiet, electrically-powered scissor lift is excellent for indoor construction, maintenance and installation applications on firm, level surfaces.

- Easy to manoeuvre in tight spaces
- Large platform workspace

Technical Specification	
Code	M6362
Working Height	10m
S.W.L.	227kg
Dimensions (LxW)	2.43m x 0.81m
Weight	2145g

**WE ALSO OFFER IPAF

HSS TRAINING**

Electric Scissor Lift - 12M

COMPACT 12 electric scissor lift can reach 11.75m working height and features non-marking tyres and has the capacity to lift two operators. This electric scissor lift is ideal for a wide range of indoor and outdoor environments including warehouses, cleaning and facilities management. To help improve safety and productivity this product is available with material handling attachments to maximize platform space.

- Small and mobile
- Environmentally-friendly electric motor

Technical Specification	
Code	M5931
Working Height	11.7m
SWL	300kg
Dimensions (LxW)	2.5 x 1.2m
Weight	2470g

Genie Runabout GR-20

The Genie Runabout GR-20 lift is a compact, low-weight machine that will make your life easier on site. It has a zero inside turning radius, is driveable when fully elevated and fits through doorways and in most passenger elevators. Ideal for warehousing, transporting, inventory management and general maintenance.

- 30% gradeability
- Proportional lift and drive controls

Technical Specification	
Code	M6321
Working Height	8.02 m
S.W.L.	159 kg
Stowed Height	1.98 m
Machine Width	80 cm
Weight	1,140 kg

Skyjack 19ft Electric Scissor Lift

This Skyjack 19ft Electric Scissor Lift has zero emissions with 16% operational carbon saving compared to previous model. It has solid rubber non marking tyres, pothole protection system and variable speed, dual front wheel electric drive.

- Drivable at full height
- 90° Steering (zero inside turning radius)
- Dual holding brakes
- 0.91 m Roll out extension deck
- 25% Gradeability

Skyjack Xstep also available to add on. This maximizes reach and productivity. It gives operators safe and increased access into and around tight, restricted spaces, such as ceiling openings and ceiling mounted structures.

- Full height platform rails provide operator security
- One person installation process and no special tools or lifting equipment required
- Installed or removed in 5 minutes

Technical Specification	
Code	M8005
Working Height	7.65 m
S.W.L	227kg
Dimensions (LxW)	1.80m x 0.82m
Weight	1,468 kg

Building, Events & Siteworks

Mesh Fence Panels

A building site or premises with tools, materials, plant and other machinery can be very inviting to a thief - additionally the site could be a break-in route into adjacent properties. When you need secure temporary fencing on-site, these temporary 2.85m wide mesh panels provide site security and are a cost-effective deterrent to theft and vandalism. Supplied with rubber feet and stabilisers, the strong close mesh provides a secure barrier. Fencing is now a health and safety necessity to keep the public out and protect them from site hazards.

- Hire rate includes backstays
- Pedestrian and vehicle gates are easily fitted
- Ideal for event crowd control
- Panels conform to HS (G) 151

Useful for:

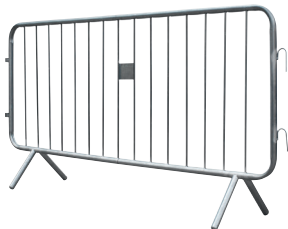

Providing Security
Crowd Control

Technical Specifications			
Code	M6089	M6091	M6092
Item	Mesh Panel Kit	Vehicle Gate	Pedestrian Gate

Pedestrian Barriers

Constructed from tough, strong galvanised steel, these 2.4m long barriers are ideal for pedestrian control. Barriers can be interlocked to form an effective chain that can be easily erected and dismantled.

Technical Specification	
Code	M5520
Dimensions (L x H)	2300 x 1100mm
Weight	14/16kg

2m Guard Barriers

Designed to be linked together, each 1 metre high free standing guard barrier has a top-faced reflective material on one side. Ideal for placing around temporary roadworks, groundwork and open excavations.

- HDPE construction, high impact strength and durability
- Stacks in 50mm (2 inch) with location (40 per pallet)

Technical Specifications	
Code	M5516
Dimensions (L x W x H)	2000 mm x 560 mm x 1075 mm
Weight	12kg

Pressure Washer & Bowser

Clean site equipment with this combined pressure washer and bowser. The bowser supplies a water supply for over an hour's continuous use.

Technical Specifications	
Code	M5678
Water Capacity	1100L, 250g
Dimensions (L x W x H)	3500 x 1560 x 1350mm
Fuel	Diesel
Weight	450kg (unladen) 1500kg (laden)

Compact Pressure Washer & Bowser

This powerful compact pressure washer and bowser is designed for hard to reach areas and provides approx. 12 minutes constant washing time away from a water source.

Technical Specification	
Code	M5683
Pressure (at full flow)	1500psi
Water Flow (at full pressure)	9L/min
Tank Capacity	150L
Fuel	Petrol

Enduramat

The enduramat is an ideal ground cover solution for accessing construction sites and events where soft ground or flooring needs to be protected from site vehicles or the general public.

- Mats measure 2440mm x 1220mm
- Simple and quick to install with easy to use connectors
- Hand cut-outs aid two man loading
- Reversible non-slip surface feature - one side for pedestrain use and the other for vehicles
- 100% recyclable material

Technical Specification

Code	M5685
Dimensions (L x W)	2440 x 1200mm
Thickness	19mm
SWL	35kg

Bunded Diesel Fuel Browsers

These fully bunded road towable diesel browsers are legal for towing up to 950L of diesel on the road. The feed and return points provide a constant fuel supply for larger generators. Recommended for refuelling of site equipment.

- Bunded base prevents fuels leaking into the environment

Technical Specifications

Code	M5684	M5688
Capacity	500L, 110 gallons	950L, 210 gallons
Dimensions (L x W x H)	2920 x 1340 x 1420mm	3500 x 1550 x 1700mm
Weight	450kg unladen;; 900kg laden	525kg unladen; 1500kg laden

Steel Props

Rugged adjustable supports for formwork during construction as well as floors, walls and ceilings.

- Made from extra strong, tubular steel
- Telescopic height adjustment

Technical Specifications				
Code	M5466	M5467	M5468	M5469
S.W.L	1700kg	1500kg	1000kg	700kg
Height (closed)	1.1m	1.8m	2.6m	3.2m
Height (extended)	1.8m	3.0m	3.9m	4.9m
Weight	12kg	17kg	22kg	29kg

Site Storage Box

The heavy duty steel plate construction of this Site Storage Box means that it is virtually impregnable to all but the most sophisticated thief. Keep tools stored on-site safe from thieves, unauthorised users and the weather with these secure portable tool stores.

Technical Specification	
Code	M5484
Dimensions	1.2 X 0.9 X 0.6m
Weight	21kg

**NOT SURE WHAT
PRODUCT YOU NEED
FOR THE JOB?**

Call or drop into your local HSS branch and they will be happy to give you guidance.

Rubble Truck

The heavy duty steel plate construction of this Site Storage Box means that it is virtually impregnable to all but the most sophisticated thief. Keep tools stored on-site safe from thieves, unauthorised users and the weather with these secure portable tool stores.

Technical Specification	
Code	M6000
S.W.L	750kg
Internal Dimensions (L x W x H)	750 x 1460 x 865
Weight	88.5kg

Site Chemical Store

This site chemical store will keep your hazardous materials safe and secure on-site.

- Fitted with a 50L leak tray and drain taps and castor wheels

Technical Specification		
Code	M5485	M5488
Castors	No	Yes
Dimensions (LxWxH)	1275 x 675 x 1275mm	1275 x 675 x 1275mm
Weight	170kg	170kg

Plant

Wide range of high quality Plant available for hire or sale including the below:

- Excavators
- Dumpers
- Rollers
- Teleporters
- Forklifts
- Skid Steer Loaders
- Portaloo's
- Towable Welfare Units

NEED SOMETHING ELSE?

**WE WILL TRY OUR BEST
TO SOURCE IT FOR YOU.**

Accommodation

Accommodation solutions at your fingertips, from offices, canteens and drying rooms to toilet blocks, welfare units and emergency showers available for long or short term hire.

We offer secure and reliable accommodation to meet the needs of modern day construction sites.

Concreting & Compaction

Tip-Up Concrete Mixers

The rotating, tilting stand of our mixers allows you to mix up to 85 litres of concrete or mortar and tip it straight into a barrow. Compact and lightweight, they can be moved easily through doorways. Ideal for both DIY and professional use - can be handled by one person.

- Will mix 85 litres in approximately 6 minutes
- Choice of electric (110v/240v) or petrol mixer
- Mixture can be tipped straight into a barrow
- Petrol is NOT supplied with this item
- Cleaning charges may apply
- CO2 emission free, no exhaust fumes versus petrol mixer

Technical Specifications			
Code	M5290	M5291	M5294
Voltage	110V	240V	Petrol
Power	630W	630W	Recoil start 4 stroke unlead petrol
Drum Capacity	85 Litres	85 Litres	85 Litres
Weight	79kg	79kg	83kg

Useful for:

- Medium sized projects
- Laying a shed base
- Paving slabs or stepping stones
- Building walls
- Cementing a driveway
- Pouring floors

Bulk Concrete Mixer Diesel

A heavy-duty, diesel powered, trolley-mounted Bulk Concrete Mixer Diesel perfect for mixing mortar or concrete in bulk on site.

- Takes just 6 minutes to mix 110 litres
- Easy wheel operated emptying

Technical Specifications	
Code	M5297
Engine / Fuel	Diesel
Drum Capacity	110 Litres
Weight	390kg

Vibrating Wacker Plates

Our Light or medium vibrating wacker plates are perfect for compacting hardcore, sand or gravel. Lifting points and front lift cage allow easier loading and unloading

- Petrol and 110v models available
- Low HAV design allows longer, safe using times
- CO2 emission free, no exhaust fumes versus petrol vibrating plate

Technical Specifications			
Code	M5408	M5411	M5414
Engine/Fuel	Recoil start 4 stroke unleaded petrol		Diesel
Plate Size (W x L)	320 x 574mm	400 x 606mm	400 x 703mm
Weight	59kg	84kg	154kg

Useful for:

- Maintenance & Repair work
- Compact hardcore, sand, gravel, soil or tarmac
- Make a smooth surface ready to lay artificial grass
- Create a pathway or driveway
- Filling potholes
- Laying a greenhouse/shed base

Floor Tile Stripper

Not only can you use this Floor Tile Stripper for lifting floor tiles, lino, carpet, or vinyl floor planks, but also for chipping off mortar, scraping plaster, glue residue and foam backing from concrete floors, as well as other build-ups that need removing ready for you to lay new flooring. Take the pain out of trying to do the job by hand. The blade angle can be adjusted according to the type of floor covering.

- High-frequency vibrating blade
- Fully adjustable blade angle to suit flooring and adhesion

Technical Specification	
Code	M5656
Voltage	110V
Power Rating	1100w
Weight	45kg

High Frequency Poker

A portable, lightweight high frequency poker for fast compaction of wet concrete.

- Flexible 3m long drive shaft
- 39mm Diameter Head – Ideal for columns and beams
- 58mm Diameter Head – Ideal for larger concrete pours

Technical Specifications		
Code	M539I	M539O
Diameter	39mm	58mm
Voltage	110V	110V
Shaft Length	3m	3m
Power	1000W	1000W
Weight	1.9kg	5kg

Floor Saw

For continuous cutting through concrete and masonry pavements, roads or motorways, we have a comprehensive range of floor saws for all professional contractors.

Note: Petrol is NOT supplied with this item

Technical Specifications		
Code	M5299	M5300
Engine/Fuel	Recoil start 4 stroke unleaded petrol	
Cutting Depth	127mm	165mm
Disc Size	350mm	450mm
Weight	87kg	135kg

Lighting

Trime X-Eco Lighting Tower

Equipped with 6x160W LED floodlights and a fuel-efficient diesel engine, the X-ECO Lighting Tower is ideally suited for outside events, highway contracts and construction projects.

- 6x160W LED lights
- 8.5 m hydraulic mast
- 110-litre tank capacity
- Up to 200 hours of running time

Technical Specification	
Code	M5622
Fuel capacity	110 litre
Lamp type	LED
Run time	200 hours
Weight empty	920 kg
Minimum dimensions	2320 x 1380 x 2420 (LxWxH)
Maximum dimensions	2390 x 2390 x 8500 (LxWxH)
Noise level	65dBA @ 7m

Self-Righting LED Work Light

Used as a single light or can be linked together to form an effective light chain. Delivering a broad, near shadow-free illumination perfect for plastering, and general decorating jobs.

- Filled with a 5m cable and 16A power socket
- Energy saving LED technology uses less power and reduces energy consumption

Technical Specification

Code	M5630
Voltage	110V
Power	20W
Weight	6.5kg

LED Smith Light

This battery powered LED light is both versatile and energy efficient making it the greener alternative to traditional halogen, fluorescent and incandescent lighting.

- Double-sided pivoting head gives all round illumination of up to 1,480 lumens
- Low heat output
- Energy saving LED technology uses less power & reduces energy consumption

Technical Specification

Code	M5634
Voltage	240V(charger)
Wattage	30 Watts
Run Time	9 hours
Open Height	1100mm

Single & Twin Head Tripod Lights

These LED floodlights emit a cool white light (6500k). An ideal solution for larger working environments, reducing the appearance of shadows. Energy saving LED tech uses less power & reduces energy consumption.

Technical Specifications

Code	M5610	M5611
Item	Twin	Single
Voltage	110V	110V
Power Rating	2 x 30W	30W
Mast Height	1.7 - 2.4m	1.7 - 2.4m
AMP	16a or 32a	16a or 32a

Fall Arresters & Retrieval Blocks

This equipment is designed for use as an arrest retrieval system. Do not use for raising or lowering of personnel. Lanyards with shock absorbers should not be used with inertia reels.

- Arrester Block: Immediately arrests any fall without jarring.
- Retrieval Block: Immediately arrests falls and allows personnel to be winched back to safety.

Technical Specifications					
Code	M6046	M6033	M6035	M6037	M6036
Item	Arrester Block 10m	Arrester Block 14m	Arrester Block 20m	Retrieval Block 20m	Retrieval Block 14m
Weight	5kg	11kg	8.5kg	13kg	17kg

Personal Gas Detector

A reliable multi-gas detector that measures O2, H2S, CO and combustible gas. It's rugged housing provides unsurpassed durability, including the ability to withstand a 6 m drop test onto concrete. With Large, glove-friendly buttons and a high-contrast display, the ALTAIR 4X is easy to operate.

- 24-hour battery run time.
- Greater signal stability and repeatability
- MotionAlert and InstantAlert.

Technical Specification	
Code	M5252
Weight	0.222kg
Alarm level	>95dB(A) @ 0.3m

Fume Extractor Cart

Featuring a built-in filter unit, this compact extractor is ideal for repair workshops where temporary welding operations require a fume extraction and filtration facility.

- Supplied with a 3m fume extractor hose, gas filter and built-in spotlight.

Technical Specification	
Code	M5538
Voltage	110v
Duct Length	3m
Weight	78kg

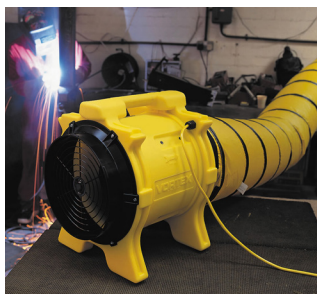

Fume Extractor

Remove dust, fumes and increase air circulation in garages and workshops with this versatile and portable ducted fan. Supplied with 6m of ducting.

- Additional ducting lengths available.

Technical Specification	
Code	M5586
Voltage	110v
Power	750w
Max Airflow	3470m³/hr
Weight	15kg
AMP	16A or 32A

Mobile Emergency Safety Shower

Essential for situations where persons may be exposed to spilling, splashing or spraying of chemicals or hazardous substances. Perfect for use when a mains water supply cannot be guaranteed.

Technical Specification	
Code	M5251
Capacity	114 L / 30 US gal
Water Inlet	1/2" quick release hose connector
Operating Pressure	3 to 5.5 BAR G / 43 to 79 PSI
Dimension (WxDxH)	Assembled: 734mm x 1462mm x 2315mm
Weight	80kg

Tripod Access System

This portable Tripod Access System is designed to safely lower a person or materials into manholes, shafts and other confined areas. It is equipped with a 50 m winch and a 20 m retrieval block.

- Supplied with heavy duty man riding winch, retrieval block and bosun's chair
- Accepts loads up to 136 kg

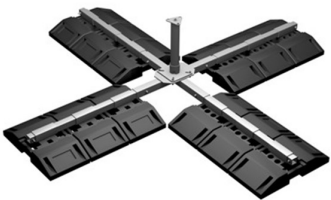

Technical Specification	
Code	M6042
S.W.L	136kg
Working Depth	18m
Weight	38kg

Roofman Anchors

When it's not practical to set up the guard rails normally required to ensure safety when working on flat roofs, then you can use a one man fall protection system that lets you do just that in absolute safety, like this Roof Man Anchor.

- Unique surface mounted anchor
- Hire Pack Includes Anchor and Arrestor Block (M6046) -Fall Arresters & Retrieval Block System should be used for edge work.

Technical Specification		
Code	M6039	M6909
	One Man	Two Man
Weight	136kg	367 kg +/- 2 kg

Breaking & Drilling

Hilti TE700 Medium Duty Breaker

This medium duty breaker is built for comfort and has been specially designed for extensive interior renovation work.

- Lowest vibration volume of its class
- Well balanced symmetrical shape
- Recommended for use with our M-Class dust extractor
- Ideal for removing plaster

Technical Specification	
Code	M5099
Voltage	110V
Power	1300W
Hammering Frequency	2760 impacts per minute
Single Impact Energy	11.5 J
Weight	7.9kg
Active Vibration Reduction	Yes
Reduced impact energy	Yes

Hilti TE1000 Breaker

This versatile breaker has 50% less vibration than conventional models, reducing user fatigue and enabling usage times to be considerably increased therefore providing high productivity.

- Chisels up to 1.3m3 of masonry per minute.
- Light and easy to operate

Technical Specification	
Code	M5035
Breaking Capacity	1600W
Voltage	110V
Weight	11kg

Hilti TE2000 Vibration Damped Breaker

The Hilti TE 2000 AVR medium duty breaker delivers powerful performance equal to competitor breakers in the 30kg weight class, at virtually half the weight. It can break up to 3 tonnes of concrete per hour. The TE 2000 can be used for breaking out channels for laying pipe, removing concrete for rebar connections and demolition of concrete slabs and foundations.

Technical Specification	
Code	M6326
Voltage	110V
Power	1760W
Single Impact Energy	35J
Hammering Frequency	1800 impacts per minute
Weight	14.5kg
Active Vibration Reduction	Yes
Reduced Impact Energy	Yes

Hilti TE3000 Heavy Duty Breaker

The mighty TE 3000 AVR heavy duty breaker brings impressive hammering power to big concrete demolition jobs. This breaker is very versatile and can be used for breaking up concrete and asphalt for road building, repair work & pipe laying.

- Breaking performance of up to 6 tonnes of concrete per hour
- Includes transport trolley
- CO2 emission free and low noise versus petrol breaker and hydraulic breaker

Technical Specification	
Code	M5113
Voltage	110V
Power	1760W
Single Impact Energy	68J
Hammering Frequency	860 impacts per minute
Weight	29.9kg
Active Vibration Reduction	Yes
Reduced Impact Energy	No

Cordless Hammer Drill

The Hilti TE6-A36 AVR Cordless Rotary Hammer is a lightweight and well balanced drill for concrete, stone and masonry. It drills to a depth of 20mm.

- Lightweight with variable speed control
- Comfortable use over long periods
- Robustly built and superbly engineered for cordless optimization

Technical Specification	
Code	M5040
Voltage/Battery Capacity	36V/3.3Ah
Power	Rechargeable batteries
Single Impact	2J
Hammering Frequency	5283 impacts / minute
Drilling Range	5-20mm
Weight	4kg

Hilti TE80 Heavy-Duty Atc Combi-Hammer

Precise control and operator comfort is guaranteed with the heavy duty ATC combi-hammer, this machine is capable of hammer drilling up to 150 mm cores in concrete, stone and masonry.

- Ideal for SDS max drill bits between 20- 40mm
- Active torque control (ATC) is an advanced safety feature which protects the user

Technical Specification	
Code	M5037
Voltage	110V
Power	1700W
Single Impact Energy	11.5J
Hammering Frequency	4600 impacts / minute
Drilling Range	20-40mm
Weight	9.7kg
Active Vibration Reduction	Yes

Two Tool Air Compressor

This air compressor is designed to be compact, efficient, economical and easy to operate.

- Fitted with air fuses for operators safety
- Electric start diesel engine
- Bunded base 110% of capacity prevents fuel and oil leaking into the environment

Technical Specification	
Code	M5193
Engine	Electric- Start
Fuel	Diesel
Max.Air Pressure	101psi
Air Delivery	125cfm (3540/minute)

Electric Air Compressor

Whether you are paint spraying or powering air tools, choose from our wide range of electric and petrol driven compressors.

- Choice of petrol engined and electric units
- Integral receiver tanks and water separators

Technical Specification	
Code	M5696
Engine	Electric
Voltage	240/110V
Max.Air Pressure	116-150 psi
Air Delivery	8-9cfm 227-250 L/min

Sawing & Cutting

Con Saw

Note: Cut-off saws will break down if the incorrect fuel mix is used and charges may be incurred.

If you are cutting bricks, blocks, concrete, stone, roof tiles or metalwork on-site, these saws are the professional's choice. Lightweight and ergonomic, with an outstanding power-to-weight ratio and exceptionally low vibrations (below 2.5 m/s²) means you can work for up to 8 hours without having to worry about vibration monitoring.

- 2 sizes available 300mm (12") and 350mm (14")
- Dust suppression kit available
- 2-stroke premix fuel available for sale

Technical Specifications			
Code	M5156	M5158	M5157
Item	12" Con Saw	14" Con Saw	Water bottle / dust kit
Engine	Recoil-start, 2-stroke	Recoil-start, 2-stroke	
Fuel	Unleaded petrol + 2-stroke oil mix	Unleaded petrol + 2-stroke oil mix	
Max Cut Depth	125mm	100mm	
Disc Size	350mm	300mm	
Weight	11kg	9.4kg	

Blades

Blades for hire or sale in 300mm and 350mm sizes. Suitable for cutting a wide variety of materials including concrete, reinforced concrete, building materials and asphalt.

Technical Specifications				
Code	M5178	M5179	M5176	M5732
Diameter	300mm	300mm	350mm	350mm
Material	Concrete	Asphalt	Concrete	Asphalt

Angle Grinders

For grinding and cutting masonry or metal, or raking out mortar joints. These are just some of the jobs our versatile, professional electric angle grinders can help you tackle.

- Low weight for optimum handling
- 110V and cordless options available
- Dust adapter option for 125mm models
- Cutting discs available for 125mm models - ask in branch for more information

Technical Specifications			
Code	M5135	M5134	M5182
Voltage	110V	110V	22v battery x2
Cutting Depth	64mm	34mm	34mm
Disc Size	230mm	125mm	125mm

Chasing Machine

When running pipes, conduits or cables, cutting accurate chases in brick and masonry is easy with our diamond-wheel machine.

- 125mm diameter discs for splitting depths up to 40mm and widths up to 46mm.

Note: We recommend using the Hilti Dust Extractor.

Technical Specification	
Code	M5174
Voltage	110V
Power Rating	1700W
Disc Diameter	125mm
Max. Cutting Width	46mm
Max. Cutting Depth	40mm
Weight	6.9kg

Masonry Saw Bench

Cutting bricks, blocks, slabs, tiles and even metal in bulk on site? This Electric Masonry Saw is a powerful, reliable, and very easy to operate which makes it perfect for the intermittent wet and dry cutting of a wide variety of small masonry materials, concrete products, roof tiles etc.

- Provides fast and powerful cuts on materials up to 600mm
- Wide 500x540mm conveyor cart, long reinforced frame
- High accuracy cutting guide with per-degree angular setting

Technical Specification	
Code	M5162
Voltage	110V
Power Rating	2200W
Max Cut Length	670 mm
Max. Cutting Depth at 90 degrees	135 mm
Max. Cutting Depth at 45 degrees	94 mm
Table Size	500 x 540 mm
Dimensions (L x W x H)	1187 x 620 x 740 mm

Sanding & Fixing

Floor Sander

Renovating old board, traditional parquet and block wooden floors is easy with this purpose-made, heavy-duty drum floor sander, removing imperfections, old finishes and most decorative stains to leave the surface ready for varnishing or polishing.

Note: Must be used with a disposable dust bag.

- Sanding sheets are not included and sold separately
- Breaks in to three components making it easy to transport

Technical Specification	
Code	M5109
Voltage	240V
Power	1920W
Weight	42kg
Dimensions (W x D x H)	322 x 940 x 855mm

Floor Edging Sander

Sands wooden floors right up to the skirting board to tackle those parts of board, traditional parquet and block floors our floor sander can't reach.

- Sanding discs are not included and are sold separately

Technical Specification	
Code	M5110
Voltage	240V
Weight	14.5kg
Dimensions (W x D x H)	276 x 505 x 325mm

Floor & Edge Sander Hire Pack

The Floor and Edge sander is also available in a Hire Pack to help you get the job done with ease.

Technical Specification	
Code	M5111
Item	Floor and Edge Sander Hire Pack
Voltage	240V
Combined Weight	56.5kg

Drywall Sanding Kit

Whether you are sanding joints in plasterboard or removing old finishes, this purpose-made, 5-speed plaster-sander tackles the job up to four times faster than conventional methods.

- Supplied with extraction unit and hose for dust-free operation
- Head swivels for sanding ceilings
- Reaches up to 3m
- Drywall sanding pad available for sale (sold separately)
- We recommend using with a dust extractor vacuum

Technical Specification	
Code	M6299
Voltage	110V
Power	300W
Disc Diameter	225mm

NOT SURE WHAT PRODUCT YOU NEED FOR THE JOB?

Call or drop into your local HSS Hire Ireland branch and they will be happy to give you guidance.

Painting & Decorating

Professional Wallpaper Stripper

The fast, effective way to remove all types of wallpaper, vinyl, woodchip & decorative wall coverings leaving a clean surface for redecoration, without damaging the plaster.

- Stripper has a step built in to the cage for hard to reach areas
- On-board storage makes this unit compact & portable

Technical Specification	
Code	M5689
Voltage	240V
Power	2750W
Tank Capacity	7.5L
Base Plate	253 x 305mm
Hose Length	5m run cool anti-kink
Weight (dry)	8.7kg

Large 7.5 litre tank capacity allows up to 90 mins of stripping

Portable Airless Paint Sprayer

For painting shops, warehouses, small offices and homes, inside and out, this portable airless spray unit is quicker than using traditional paintbrush or roller and can be used with most emulsions and resin-based paints.

- Spray gun with 15m hose
- Suction feed takes paint from bucket or paint container

Technical Specification	
Code	M5691
Max. Tip Size	0.53mm (0.021)
Power	1100W
Voltage	110V
Pump Volume	1.74LPM
Weight	19kg

Surveying & Location

Exterior Rotating Laser

The Hilti PR 2-HS is resistant to water, impact and dust, so it is ideally suited for tough conditions in any environment. One button, one function makes the tool extremely easy to operate

- Pulse Power Technology means this machine is unaffected by the sun and other lights sources
- Digital measurement indicates advises operator precisely how much measurement deviates from target value

Technical Specification	
Code	M5443
Accuracy	±0.5 mm at 10 m
Operating time with Li-ion battery	30 h
Slope types	Single
Weight with batteries	2.5 kg
Dimensions (LxWxH)	200 x 200 x 230 mm

Hilti PR 300 HV2S Dual Grade Rotating Laser

Precise and accurate, reducing the risk of any costly errors. It is made to withstand a tripod drop of up to 1.5 m, so is ideally suited for tough conditions in any environment.

- Monitors and corrects vertical laser at regular intervals for reliable performance
- Allows for fast, automatic laser alignment at up to 150m making use of this item a 1 man job

Technical Specification	
Code	M5444
Accuracy	±0.5 mm at 10 m
Operating time with Li-ion battery	25 h
Slope types	Dual
Weight with batteries	2.5 kg
Dimensions (LxWxH)	200 x 200 x 230 mm

Hilti PR 30-HVSG Interior Green Rotating Laser

This easy to use laser is 4x brighter than conventional red-beam lasers with better visibility when working across long distances or in brighter environments. It is made to withstand harsh onsite conditions.

- Rotating laser beam can be switched via infrared remote control at any time to a stationary laser line able to shift in the horizontal and vertical planes

Technical Specification	
Code	M5442
Accuracy	±1 mm at 10 m
Operating time	16 h
Self-leveling range	±5°
Weight with batteries	2.5 kg
Rated voltage	10.8 V

Hilti POL 15 Optical Level

Equipped with a high end lens that delivers a magnification of 28x efficiency. A simple optical device used in daily levelling tasks, it has a robust construction can withstand extreme working conditions making this ideally suited for various environments.

- High Quality optics
- High Quality mechanisms for smooth, easy operation
- Automatic compensator for accurate levelling

Technical Specification	
Code	M5445
Height accuracy	±1.5 mm at 30 m
Compensator type	Air-damping
Standard deviation (1 km double levelling)	2 mm
Weight with batteries	1.8 kg
Dimensions (LxWxH)	190 x 130 x 136 mm

Hilti PR 300 HV2S Dual Grade Rotating Laser

Precise and accurate, reducing the risk of any costly errors. It is made to withstand a tripod drop of up to 1.5 m, so is ideally suited for tough conditions in any environment.

- Monitors and corrects vertical laser at regular intervals for reliable performance
- Allows for fast, automatic laser alignment at up to 150m making use of this item a 1 man job

Technical Specification	
Code	M5444
Accuracy	±0.5 mm at 10 m
Operating time with Li-ion battery	25 h
Slope types	Dual
Weight with batteries	2.5 kg
Dimensions (LxWxH)	200 x 200 x 230 mm

Leica Rugby 620 Exterior Rotating Laser

A horizontal laser with manual grade capability. Designed for general contractors who mainly perform formwork and concrete applications.

- Fully-automatic operation with the Leica Rod Eye receivers.
- Perform single slope applications using the manual grade control

Technical Specification	
Code	M5443
Accuracy	± 2.2 mm at 30 m
Laser Type	635 nm (red)
Rotation	10 rps

Prexiso Green Laser Kit

The bright green-beam is much brighter than standard red-beam. Shows digitally the height difference in millimeter of the zero line of the receiver to the rotating laser without calculation

- Easy variable speed selection (max: 600RPM) and manual scan angles

Digital laser receiver- for easy finding of level during application

Technical Specification	
Code	M5435
Levelling Range	±5 degrees.
Laser Type	635 nm (red)
Max Diameter Range	600m

Signal Generator Cat4Plus

This portable, powerful Signal Generator Cat4Plus is extremely useful for any excavation. It sends out a diverse range of signals which will help to accurately determine underground utility locations. It provides a map so that you can dig safely and without any damage to gas pipes, water pipes, fibre optic cabling, network cabling and other utilities.

- Simple to use
- Very robust
- Fully weatherproof design
- High strength neodymium magnet

Technical Specification	
Code	M5454
Range	5 - 7m dependant on locator
Dimensions (L x D)	102mm x 38mm diameter

Cable Avoiding Tool Cat4Plus

Need to avoid underground service pipes or power cables? The CAT 4plus range can help you to locate them in a quick, safe and accurate way. You can trace smaller cables and avail of overload protection which filters out high levels of noise interference.

- Also with the option of StrikeAlert and Data logging.

Technical Specification	
Code	M5455
Max Detection Depth	4m
Weight	3kg

Duct Rods

High strength rod which is flexible enough to cope with bends yet sufficiently rigid to push-feed through pipes, ducting channels or behind machinery and other obstacles. Manufactured from fibre glass.

- Facilitates cable laying without excavation
- Tapered end with pulling rope eye

Technical Specification		
Code	M6012	M6013
Frame Width	800mm	1050mm
Frame Height	915mm	1180mm
Frame Depth	295mm	530mm
Rod Working Length	120m	250m
Rod Diameter	9mm	11mm
Weight	23kg	54kg

Handheld Thermal Imaging Camera

This becomes especially important in the winter, helping to identify where heat is escaping from your home or business, and any moisture issues that aren't visible to the eye.

- Detect drafts & poor insulation before they become costly heating problems
- Spot moisture or leaks that could lead to mould
- Check underfloor heating and pipes safely
- High Image Quality and 4 Image modes.

Technical Specification	
Code	M7000

Pipe Inspection Camera

This Pipe Inspection Camera System is designed for inspection of sewer, pipe, air ducts, underground cable pipes, etc

- Equipped with a 1080P AHD 23mm camera head, 20-40m fiberglass cable and 7"/10" LCD monitor with SD card recording

Technical Specification	
Code	M6999

5m Inspection Camera

Laserliner Video Scope 5m Inspection Camera with LED Illumination.

Technical Specification	
Code	M6980
Probe Length	5m
Probe Diameter	9mm
Illumination Type	LED
Minimum Focus Distance	10mm

Cooling

Evaporative Cooler

These evaporative coolers are suitable for a variety of locations including shops, warehouses, factories and large areas. Available in two sizes.

- Can reduce room temperature by up to 14°C
- Powerful 2700m³ per hour airflow directed through both louvres
- Provides natural cooled air for areas up to 53m²
- Mobile and easy to set up

Technical Specifications

Item	Medium	Large
Code	M5581	M5582
Power	240V	240V
Wattage	220W	300W
Cooling Area	57m ²	80m ²
Water Capacity	40L	50L
Dimensions (L x D x H)	620 x 375 x 686mm	700 x 466 x 1017mm
Weight	15kg	18kg

Power Fan

The power fan is a fully portable industrial cooler. It provides high-performance cooling in both commercial and industrial applications.

- Ideal for warehouses, factories, marquees and offices
- High level fans available
- Adjustable fan height
- Variable fan speeds

Technical Specifications			
			High level power fan
Code	M5592	M5593	M5594
Power	240V	110V	110V/240V
Max Output	9100m³/h	9100m³/h	9100m³/h
Motor	780W	780W	780W
Height	N/A	850mm	1.4m-2.1m

Compact Air Conditioner

Sleek and modern mobile air conditioning unit which will cool down offices, computer and conference rooms. With castors fitted this compact air conditioner can be moved easily from room to room. Supplied complete with exhaust vent and hose.

Technical Specification	
Code	M5609
Voltage	240V
Cooling area	25m²
Cooling capacity	3.2kW
Dimensions (H x W x D)	775 x 375 x 442mm
Weight	40kg

Heating

Infrared Heater

Suitable for a variety of locations including shops, factories, warehouses and offices. These heaters provide instant, localised fume free warmth.

- Projects heat up to 6m
- Single or twin heat settings
- Castors for easy manoeuvrability

Technical Specifications		
Code	M5550	M5551
Heat Output	3kW	3kW
Voltage	110V	240V
Power	3kW Continuous	3kW Continuous
BTU/h	10236	10236
Lamps	2X 1.4Kw Slim Line Ruby Quartz Halogen	2X 1.4Kw Slim Line Ruby Quartz Halogen
Frequency	50Hz	50Hz
Dimensions (L x W x H)	500 x 460 x 1000mm	500 x 460 x 1000mm
Material	Medium Density Polyethylene (Heater Body)	Medium Density Polyethylene (Heater Body)
Cable Length	3m	3m
Weight	12kg	12kg

Fan Heater

This portable fan heater is ideal for homes, offices, retail outlets and other occupied areas where safety is key. Built-in protection against overheating and cut off protection when knocked over.

- Thermostatically controlled heat
- Adjustable heater angle

Technical Specification	
Code	M5542
Heat Output	2.4kW
Power	240V
BTU/h	9553
Weight	8.3kg

LPG Blower Heater

With the power to heat large spaces quickly, these mobile direct-fired, fan-assisted propane heaters are ideal for industrial and on-site use.

- Need no electrical supply

Technical Specifications			
Code	M5557	M5559	M5560
Heat Output	31kW	44kW	73kW
Power	110V/60W	110V/240W	110V/240W
BTU/h	105000	150000	260000
Gas Consumption	2.5kg/h	3.25kg/h	5.9kg/h
Weight	11.5kg	19.4kg	29.6kg

Fan Heater - 2kw

This portable electric self-regulating fan heater is great for providing heat quickly in cold rooms and spaces. The 2kW PTC element, which allows for energy efficiency, requires less power to maintain a constant temperature, resulting in significant energy savings over time.

Technical Specification	
Code	M6995
Heat Output	2kW
Power	240V
Weight	3kg

Fan Heater - 3KW

Industrial heavy-duty box fan heater made to withstand the rigours of regular site use. Requires a 32 amp power supply or continuous rated transformer

- Ideal for warehouses and site applications.

Technical Specification	
Code	M6996
Heat Output	2640 W
Power	110V
Weight	11 kg
Dimensions W X D X H	310 x 300 x 355 mm
Air Flow	335 (m3/h)

3-Phase Industrial Heater-18kVA

These portable industrial fans are ideal for heating locations such as factories, warehouses, commercial buildings and other sites with three-phase supply. Can also be used for circuit load testing

Technical Specification	
Code	M5543
Heat Output	9kW / 13kW / 18kW
Power	415V
BTU/h	61000
Weight	28kg

Indirect Oil Heater

Suited to places where ventilation is limited or there is a risk to combustible materials. Can also be used for drying applications. Provides large volumes of clean warm dry air for heating large spaces such as halls, marquees and areas where people are present.

- Supplied with 5m heat ducting

Technical Specification		
Code	M5543	M5555
Heat Output	72kW	72kW
Power	110V	240V
BTU/h	245000	245000
Tank Capacity	100L	100L
Running Time	15 hours	15 hours
Weight	121kg	121kg

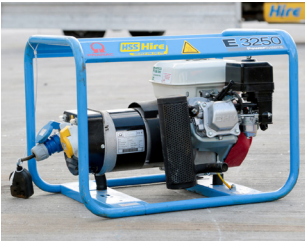

Power

2.6kVA Petrol Generator

Perfect for providing on-site electricity for lighting & small power tools, this useful little generator is so portable it fits into the boot of most cars. Recommended for use with an RCD plug.

Technical Specification	
Code	M5281
Engine	Recoil Start
Fuel	Unleaded Petrol
Fuel Tank Cap/Run Time	3L/3 Hours
Generated Voltage	110V / 240V
Continuous Power	2.2kW
Weight	41kg

6kVA Silenced Diesel Generator

For powering heavy duty site tools, these diesel generators are equipped with 240V and 110V sockets. Low noise emission, fitted with multi-socket outlets and circuit breaker

Technical Specification	
Code	M5 287
Engine	Electric Start
Fuel	Diesel
Generated Voltage	115V/230V
No of outlets	3x 115V/2x 230V
Continuous Power	4.3kW
Fuel Tank Cap/Run Time	24L/16 Hours

10kVA Silenced Diesel Generator

Producing over 7kVA of continuous power, this barrow mounted generator has a choice of seven 110V and 240V outlets.

Technical Specification	
Code	M5285
Engine	Electric Start
Fuel	Diesel
Generated Voltage	115V/230V
Plugs available	4x 115V/3x 230V
Continuous Power	7.2kW
Running Time	10 Hours

20 - 1000 kVA up to 50 hrs

A range of reliable and efficient silenced generators. Also available with unlimited hours.

Please note: Our larger generators are subject to opening a HSS Hire Ireland Account.

Please call us on 1800 22 33 66, or drop into your local branch, for further details on our range of generators.

NOT SURE WHAT GENERATOR YOU NEED FOR THE JOB?

Our friendly team will be happy to assist and provide some guidance.

available for hire.

Drying & Pumping

Pump Dehumidifier (52 Ltr)

No more checking water levels and emptying water with this dryer. The in-built pump purges water automatically through the supplied hose direct into a sink or drain, over 12m away. The rotomolded polyethylene housing is dent resistant, offers superior durability, and helps to protect furnishings when in use. Stack up to two units high for storage. A rigid handle and semi-pneumatic wheels ensure easy transport and manoeuvrability.

- Removes up to 55L of water per day
- Supplied with a discharge hose

Technical Specification	
Code	M5568
Power	240V/720W
Extraction Rate at AHAM Certified Conditions	32L/day @ 26°C and 60% RH
Maximum Extraction Rate	55L/day @ 32°C and 90% RH
Operating Range	1° - 38°C
Weight	36kg

Useful for:
If your space is suffering from damp due to flooding, a leak, plastering or if it is an old building.

25Ltr Industrial Building Dryers

Dry out damp buildings quickly and efficiently before rot and fungus can take hold. Invaluable in the aftermath of floods & burst pipes, this dryer can also be used as a dehumidifier to reduce condensation after plastering or decorating.

- Extracts 4.5 to 30L of water in 24 hours
- Dries spaces up to 300m³

Technical Specifications	
Code	M5566
Power Rating	1.5kw
Voltage	110V
Weight	55kg
Extraction Rate	25L at 20deg. and 75% RH

Puddle Pumps

This puddle pump is ideal for pumping out clear water from flooded areas and cellars. The electric pump will reduce water levels to within 1mm of the floor.

- Supplied with discharge hose

Technical Specification	
Code	M5417
Voltage	110V
Power	370W
Outlet Size	25mm
Max Output (no lift)	105L/minute

Submersible Pump

For dealing with deep clear water found in drains, wells and swimming pools, these fully submersible electric pumps are both highly efficient and economical.

- Can pump over 240L a minute
- Supplied with discharge hose

Technical Specification		
Code	M5418	M5419
Float Switch	No	Yes
Voltage	110V	110V
Power	110V/480W	480W
Outlet Size	50mm	50mm
Max Output (no lift)	240L/minute	240 Litres/minute

Trash Pump

For clearing trenches and deep excavations of water and water-borne debris, this petrol-engine trash pump will handle solids up to 25mm and is capable of shifting over 1300 litres of water per minute.

Technical Specifications	
Code	M5423
Outlet Size	75mm
Max Output (no lift)	1340L/minute
Max. Suction Lift	8m
Max. Total Head	27m
Fuel	Unleaded petrol

Centrifugal Pumps

Emptying swimming pools, pumping out flooded areas - these versatile lightweight portable pumps will cope with most water pumping jobs.

Technical Specifications		
Code	M5421	M5422
Outlet Size	50mm	75mm
Max Output (no lift)	600L/minute	930L/minute
Max. Suction Lift	8m	8m
Max. Total Head	27m	26m
Fuel	Unleaded petrol	Unleaded petrol

4" & 6" Diesel Pumps

Seltorque solids handling pumps use vortex technology to deliver market leading solids handling for the most demanding sewage, sludge and bentonite applications.

- Vortex style pump
- Environmentally friendly Selprime automatic self priming
- Emission compliant engines
- Ease of operation & maintenance
- Proven design

Technical Specifications		
Model	S100	S150
Capacity	165 m3/h	320 m3/h
Total Head	21.3m	27m
Solids Size	75mm	100mm
Self Priming Lift	8.8m	8.8m
Air Handling	24l/s	24l/s
Power Required	16kW	40kW
Pump Speed	1600rpm	1600rpm
Inlet / Outlet	100mm	150mm

Compact Dehumidifier With Pump

A compact, easy to manoeuvre and transport pump dehumidifier. No more checking water levels and emptying water containers with the inbuilt pumps purges waters through the supplied hose direct into a sink or drain up to 7m away.

Can be used for removing moisture in the air following flood and rain damage. It can also be used for drying plaster allowing decorating rooms to start sooner. The compact design makes it beneficial in domestic and commercial environments.

Whilst a dehumidifier on its own can be very effective it is worth considering using a heater and an air mover at the same time to speed up the process.

- Compact easy to operate unit.
- Removes up to 16 Litres per day.
- Ideal solution for removing moisture in domestic and commercial environments.
- Supplied with discharge hose.

Technical Specifications	
Code	M6808
Max Extraction Rate	16L/day @ 30°C & 80% RH
Operating Temperature Range	5 - 32°C
Voltage	240V
Watts	395W
Weight	21kg
Dimensions L x W x H	360mm x 330mm x 490mm

Plumbing

Central Heating Flusher

A professional descaling unit designed to flush out central heating systems and remove harmful iron oxide deposits, which can cause radiator cold spots and blockages. Also protects boilers and pumps. Gloves and cleaning fluid can be purchased online or when flusher is picked up.

- 50 Litre heavy duty tank
- Easy to use cam-lock connections
- Reverse flow and double dump facility as standard

Technical Specification

Code	M5499
Voltage	240V
Power Rating	370W
Capacity / Total Head	40L/12m @ 60L/minute
Weight	12kg

Pipe Freezing Kit

Note: Please state pipe size when ordering.

No need to drain plumbing systems to make repairs or alterations. Provided the cold water is not flowing, sections can be isolated with ice plugs.

Technical Specification

Code	M6910	M5755
Voltage	110V	240V
Power	310W	310W
Pipe Sizes	12-42mm	12-42mm
Weight	25kg	25kg

Pressure Tester

Test for leaks in pipework and water systems following installation using our manual or electric pressure pumps.

- Manual tester
- Sensitive pressure-loss leak detection
- Electric tester

Technical Specifications		
Code	M5757	M5758
Item	Manual	Electric
Max Test Pressure	60 bar (840psi)	40-78 bar (1100psi)
Weight	7kg	16kg

Rothenberger Pipe Threader 3in

This powerful and professional Rothenberger Pipe Threader 3in is what you need for threading, cutting and reaming steel pipe in bulk either on site or in a workshop. The foot switch control allows for hands free operation, whilst the self-oiling lubrication system ensures best performance and precision threading.

- Safe foot-switch control for hands-free operation
- Self-oiling lubrication system
- S3 threader
- Supplied complete with sturdy stand

Technical Specification	
Code	M5743
Voltage	110V
Power Rating	1700W
Piston Force	100kN
Weight	100kg

Cleaning

Carpet Cleaner

Our carpet cleaner is ideal for domestic carpets in households and small offices. This compact and easy to manoeuvre unit is simple to operate and cleans / restores pile on most fabrics (test small area first).

- Quick drying and leaves minimal residual moisture
- Deep cleans carpets
- Simple to operate
- Carpet cleaning solutions for sale

Technical Specification

Code	M6306
Voltage	240V
Power	1100W
Maximum Area Performance	20/25m ² /h
Air Flow Rate	54L/s
Spray Rate	1L/m
Spray Pressure	1bar
Back Pressure	2.5bar
Tank Capacity	10L
Dimensions (L x W x H)	665 x 320 x 435mm
Weight	10kg

Compact Pressure Washer

This highly mobile petrol-powered high-pressure cleaner is mounted in a tubular steel cage frame. The machine is ideal for cleaning applications where no power supply is available.

Technical Specification

Code	M5668
Engine/Fuel	Recoil start 4-Stroke/ Unleaded petrol
Operating Pressure	150bar (2200psi)
Flow Rate	650L/h

Pressure Washer

With an operating pressure of up to 130 bar, our compact and versatile power washer is ideal for a wide range of cleaning jobs.

- Automatic pressure cut-off for reduced energy and water consumption. Switches off immediately when work is interrupted
- Integrated 10m high-pressure hose

Useful for:

Cleaning patios & furniture
Avenue's / footpaths
Exterior Walls of buildings
Concrete garage floor
Wooden Deck
Garden walls
Car, bin, gutters

Wet & Dry Vacuum

This wet & dry vacuum can stand up to constant use in difficult wet or dry applications. With a drain hose for easy emptying and a generous 90L capacity, the wet and dry vacuum makes dealing with large-scale floods or spillages easy.

Technical Specification	
Code	M5651
Voltage	110V
Power	2200W
Waste Capacity	30L (6.59 gallons)

Compact Pressure Washer & Bowser

This powerful compact pressure washer and bowser is designed for hard to reach areas and provides approx. 12 minutes constant washing time away from a water source.

Technical Specification	
Code	M5683
Pressure (at full flow)	1500psi
Water Flow (at full pressure)	9L/min
Tank Capacity	150L
Fuel	Petrol

Gardening

Portable Electric Shredder

Reliable, strong and powerful machine that reduces garden waste, including branches, brushwood and prunings, into compost material and mulch. Easy to transport.

- Removal bag for easy waste disposal
- Low noise it has double wall to reduce noise pollution
- Removeable funnel for ease of transportation

Technical Specifications	
Code	M5720
Voltage	240v
Weight	63kg
Cutting Capacity	35mm
Dimensions (L x W x H)	1280 x 650 x 1385mm
Chopping Speed Cuts/min	36

Turf Cutter

The easiest and most efficient way to remove large areas of turf in preparation for landscape gardening projects, pipe and cable laying.

- Ideal for removing turf that needs to be relaid

Technical Specification	
Code	M5706
Fuel	Petrol
Working Width	400mm
Blade Depth Adjustment	25mm to 40mm
Weight	90kg

Rotavator - Power Digger

Labour saving & easy to transport

Digging over large areas of cultivated ground? You'll find it quicker and less back-breaking with this powerful professional rotavator.

Ideal for commercial and domestic applications, this tool is easily capable of producing excellent results on previously cultivated ground such as garden borders, allotments and vegetable plots.

- Powerful 5hp engine with a digging depth of 200mm
- Working width of 640mm making this item ideal for use on large areas

Note: petrol is NOT supplied with this item (fuel container available to purchase)

Technical Specification	
Code	M5712
Engine	5hp Recoil start 4-Stroke
Fuel	we do not supply fuel
Fuel Tank Capacity	3.1L
Fuel Consumption	1.4L per hour
Working Width	640mm
Digging Depth	200mm
Weight	69kg
Dimensions (L x W x H)	1400 x 700 x 840mm

Rotary Lawn Mower

Mowing large areas is no problem for this professional, powerful rotary petrol lawn mower.

Technical Specification	
Code	M5702
Engine	Recoil start 4-Stroke
Fuel	Unleaded Petrol (fuel is not supplied with this item)
Cutting Width	500mm
Weight	29kg

Lawn Scarifier

Our powerful petrol-driven lawn scarifiers are ideal for use on large lawns, parkland and playing fields.

Technical Specification	
Code	M5704
Engine	4.8hp Recoil Start
Fuel	Unleaded Petrol
Fuel Tank Capacity	3.1L
Working Width	420mm
Weight	63kg

Garden Roller

Why not give your lawn that professional finish with this easy to handle, easy to clean garden roller. This Roller is ideal for the compressing of soil work and smoothing of lawns and is lightweight when empty to carry in a car.

- Use for the smoothing of lawns
- Can be filled with water or sand

Ideal for
compressing
soil

Technical Specification	
Code	M5705
Weight (empty)	7kg (empty)
Weight (full)	63kg (full)

Mini-Dumper

This 0.25 tonne dumper is an exceptional machine for moving building materials and aggregate. This 4-wheel drive power unit is 700mm wide, making it narrow enough to fit through the average doorway for internal work, slip down side alleys or climb over steps and footings.

Technical Specification

Code	M5402
Engine	5.5hp
Fuel	Unleaded Petrol (fuel is not supplied with this item)
Capacity	6 cu ft or ¼ tonne (250kg) carrying capacity
Weight	110kg

Hedge Trimmer

Petrol hedge trimmers and cutters are perfect for larger gardens and are ideal for working away from mains power supply.

- Please note - Fuel is not supplied with the petrol model of this item.

Technical Specification

Code	M5709
Voltage	Recoil start 2-Stroke
Power	Petrol (not included with hire)
Blade Length	700mm

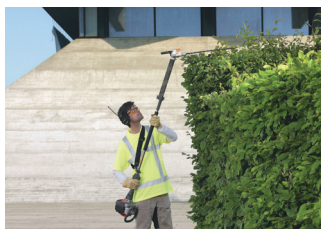

Long-Handled Hedge Trimmer

This long-handled petrol hedge trimmer lets you cut tall hedges anywhere in the garden, without the need for access equipment.

- Adjustable cutter bar for greater visibility and less tiring work

Technical Specification

Code	M6300
Fuel	Petrol + 2-Stroke Mix
Cutter Length	550mm
Pole Length	2.34m

Leaf Blower

This portable petrol driven backpack leaf blower is ideal for clearing areas of fallen leaves, grass cuttings and other materials. It can clear large areas both quickly and conveniently.

Technical Specification	
Code	M6305
Engine	2-Stroke Air-Cooled
Fuel	Petrol + 2-Stroke Mix
Weight	9kg

Petrol Strimmer Brush Cutter

Made to cut long grass, lawns, weeds and light under-growth, this petrol strimmer brush cutter will reach into the most inaccessible places.

- Choice of heads for grass and undergrowth
- Star blades / cord / decimator are not included and are sold separately

Technical Specification	
Code	M5700
Engine	1.5hp Recoil start 4-Stroke
Fuel	Unleaded Petrol
Weight	6.5kg

Flame Gun

Whether you're burning off weeds or sterilising ground ready for digging, this triple-burner flame gun will get the job done. Propane gas available for sale.

Technical Specification	
Code	M5714
Gas Consumption	5.9kg/hour
Weight	3kg

Safety Symbols

Make sure you meet your duty of care for employee and personal safety. To help you, we ensure all HSS products conform to the Health & Safety at Work Act 1974.

Eye Protection – All round protection grade 1 goggles to EN 166.B – Less hazardous work: grade 2 spectacles.

Breathing Masks

1. General purpose, disposable masks or low-risk dust and water-based airborne sprays.
2. Respiratory disposable masks with charcoal filter for welding fumes, ozone and most nuisance level odours.
3. Consult product supplier for guidance and COSHH data information.

Welding Masks – Welding masks or goggles are included with your equipment.

Ear Defenders – Protection against high noise levels. Earplugs are suitable for short-term work.

Safety Footwear – To BS EN 345 for toe protection.

Vibration Caution

More information can be found at hss.com

Protective Gloves – Gauntlets, PVC, cotton or nigger gloves for hand protection.

Safety Helmets – Protect against falling objects. Compulsory on site.

Dust – We recommend using a Dust Extractor where you see this symbol.

Disposable Overall – Semi-durable polypropylene material protects clothing from accidental splashing and dirt.

Power Breaker – RCD Residual Current Devices protect from electric shock.

Strongly recommended for electrical equipment used outdoors or in damp conditions.

Personnel Lifting – Equipment designed for personnel lifting. Use of safety restraint harness recommended.

Vertical Lifting – Use only for vertical lifts. Position or suspend equipment from a safe point to take weight of load and equipment.

Angle Lifting – Use at any angle for lifting, pulling or dragging. Anchor to a secure point able to take load force applied. Allow for contact friction if dragging.

Sling Lifting – Do not use “load” cable/chain as sling. Prevent hook overcrowding, with a “bow” shackle. Join lifting equipment with a ‘D’ shackle. Protect sharp edges to prevent load damage.

Stable Load – Ensure load is balanced and personnel stand clear. Attach “tag” lines to control rotation. Never leave equipment unattended. Ensure unobstructed landing site accepts equipment plus load in size and weight.

Hook Safety – Ensure safety catches are engaged and load chains/cables are untangled and hang freely.

Transport Symbols

Collecting Yourself

If you are collecting equipment, weights are shown in kilograms and are supported by symbols indicating the type of vehicle needed.

Where no symbol is shown the equipment may be carried in a family saloon.

Estate car

Towable

Truck

7.5 tonne truck

Fuel Services

We can supply Eco packs, Red Diesel and Fuel Management Services where you see this symbol.

H.O.L (Height of Lift)

Indicates the maximum height of lift.

S.W.L (Safe Working Load)

Do not exceed safe working load or submit to a load greater than its carrying capacity.

Reach

Working height (2 metres above platform).
